

Classic and reduced forms

Design-oriented & space-saving

KAPSA

KAPSA's classic, reduced forms make it a power strip that is both design-orientated and space-saving – designed for the kitchen, office and many other areas in living and work environments.

The lid – which can be flipped open and changed – provides protection against external influences and is available in several versions. Modular equipment options make flexible configuration possible.

Installation from above guarantees simple mounting – also optionally available as a retrofitted solution. A low mounting depth of approx. 45 mm and a solid design characterise KAPSA and confirm that: less is more.

BENEFITS

- **Easily changeable lid available in various versions**
- **Modular equipment options**
- **Aluminium lid with high-quality look and feel**
- **Low mounting depth (approx. 45 mm)**
- **Simple mounting from above, retrofitting possible too**

**BACH
MANN**

Lid can be changed
and easily retrofitted.
