Putting an end to cable clutter

Tidy and safe with our cable management (system)

Power cables, connection cables or charging cables - different types of cable collect on, behind and under the desk, often causing cable tangle. In order to avoid cable chaos on desks or floors, it is Goobay's cable management to the rescue. The benefits are obvious: tidyness, safety, a clean look and a long service life of the cables.

Safety at work

Loose cables are real tripping hazards in everyday life and can lead to accidents at home or at work. The right cable management not only minimises the risks but also protects the cables from damage.

Simple and safe attachment

With or without adhesive surface - the cable organisers can be attached to cables or tables in no time at all. Simply peel off the protective film and attach the clip to a smooth, dry and clean surface - of course, you can easily remove and reattach it to other surfaces. By the way: They're also suitable for your charging cables in the car.

Quick cleaning

As soon as you have organised the cables on the desk or floor with our cable organisers or cable channels, you can much more easily clean the surfaces of dust and dirt. No more cable jungle to get in the way of cleaning.

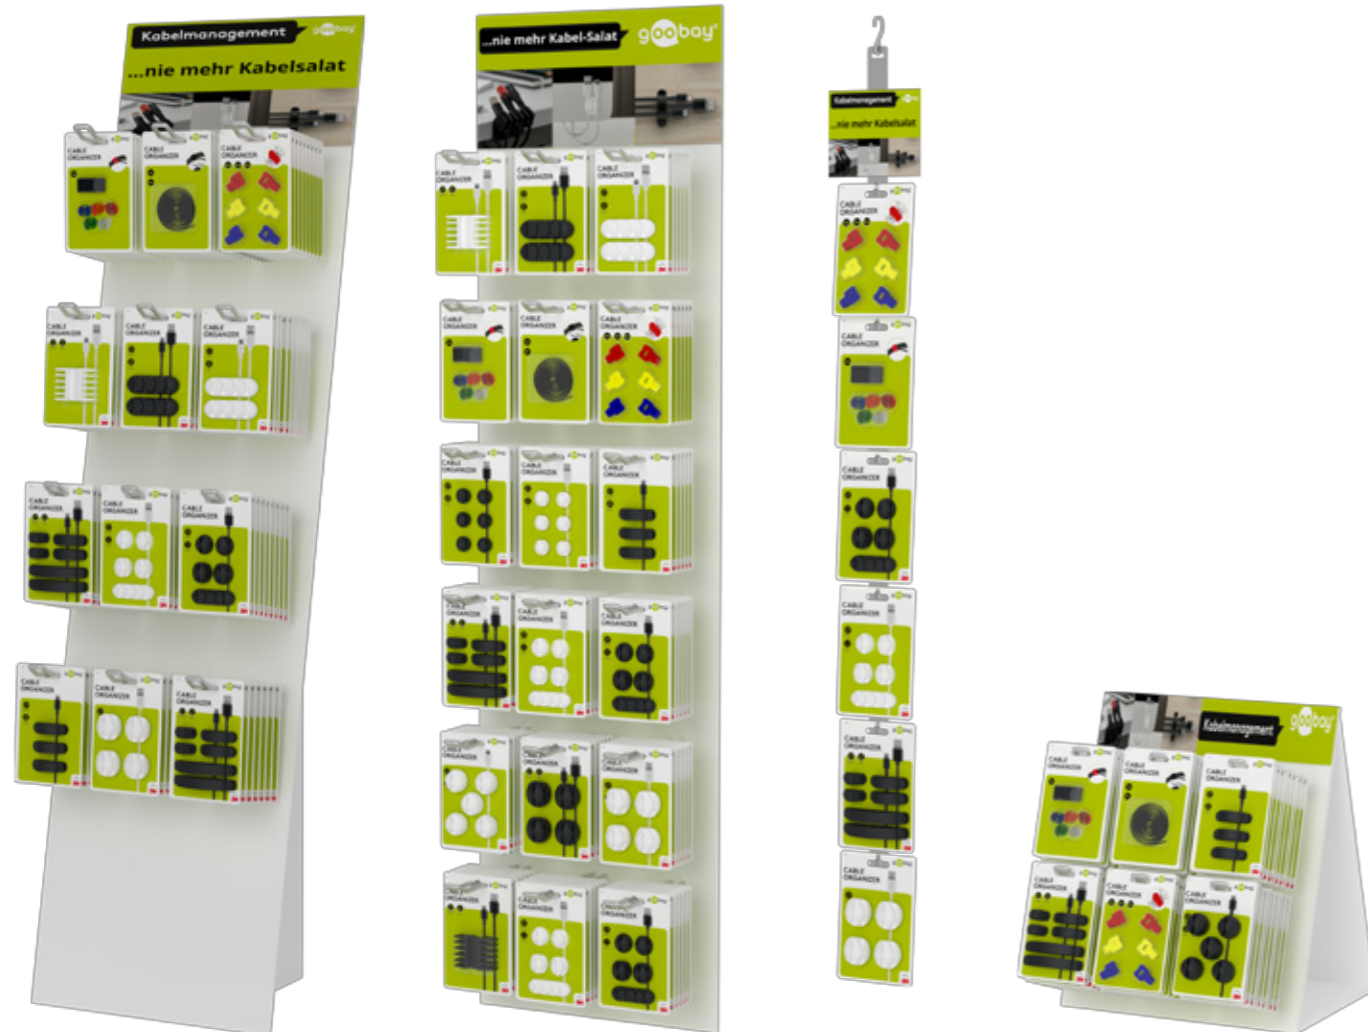

Point of Sale Support

Discover our creative POS ideas that help you to place products exactly where they attract attention. Our solutions are effective advertising tools for presenting new products. With variable placement options, we adapt to your individual requirements. Increase your sales success and put your products centre stage.

CABLE MARKERS

BOLDLY COLOURED AND SAFE

CLIP-ON CABLE MARKERS WITH NUMBERS (0 TO 9) OR LETTERS (A, B, C)

FOR CABLE DIAMETERS FROM 2.5 - 6 MM²

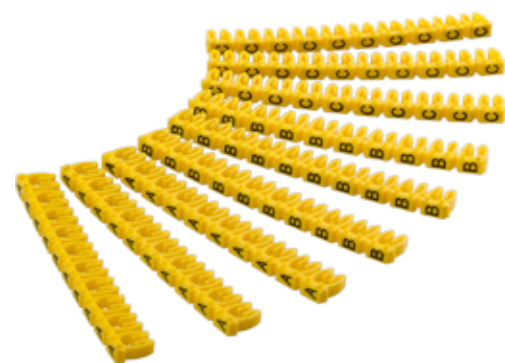

Goobay
Cable Marker Clips "Digits 0-9"

10x10 coloured coding rings for labelling cables with a wire cross-section of 2.5 mm² | 4 mm² | 6 mm²

- Coloured cable tags with digits from 0 to 9 for marking and distinguishing e.g. Ethernet cables
- Cable markers help engineers and technicians identify and maintain cables.
- Cable labels are commonly applied in cable ducts and bundles.
- Cable markings can also be applied after the cables have been connected, allowing to label retrofitted network cables.
- The retaining clips protect the wire label from twisting and lock them in place (anti-twist protection).
- With their small pins and sockets, the cable marker tags can be easily connected to each other.
- Set of 100 colour-coded wire markers for cable diameters of approx. 1.5 - 2.5 mm | 3.8 - 5.9 mm | 5.6 - 7.4 mm
