

SPRENGER

Herrn. Sprenger

**HANDCRAFTED FOR DOGSPORTS
SINCE 1872**

SPRENGER

ABOUT SPRENGER

Since its foundation in 1872 by Hermann Sprenger, the name has stood for quality and innovation. What began as a manufacturer of equestrian equipment has grown to include boat fittings and dog accessories. Today, decades of experience, in-depth market knowledge, and close collaboration with experts in dog training, veterinary science, and research form the foundation for products that set international standards.

PRODUCT MARKING

All SPRENGER collars are marked on the rings. The HS-GERMANY stamp – complemented by INOX or CUROGAN depending on the material – stands for certified quality “Made in Germany”. You will also find our signature on Ultra plates and swivels – a clear sign of an original SPRENGER product.

GUARANTEED BREAKING LOADS

At SPRENGER, quality is no coincidence – it is the result of precision at every stage: from careful material selection and electronically monitored welding processes to rigorous tensile strength testing. Specific parameters are defined for each material and wire gauge to ensure optimal strength. This allows us to guarantee reliable breaking loads for all collars.

Hermann Sprenger

HANDCRAFTED FOR DOGSPO RTS
SINCE 1872

Trust -
**SOMETHING
YOU DON'T HAVE
TO EXPLAIN.**

“Handcrafted for Dogsports” is far more than just a slogan to us – it is a promise. A commitment we live by every day – supported by our family and our team.

Combining traditional craftsmanship with state-of-the-art manufacturing technology, we create premium products that meet the needs of dog sports enthusiasts and discerning dog owners.

Every product is inspected by hand and carefully packaged – because quality is born where people work with passion.

Far removed from anonymous mass production, our products deliberately pass through many hands.

Our understanding of quality does not end with the product: **reliable delivery and service based on partnership** are a matter of course for us.

As a reliable partner, we want to support you in the long term – because we are not just part of your equipment, but part of what drives you.

PART OF YOUR PASSION.

Stainless steel

QUALITY WITH TRADITION – HIGH-QUALITY STAINLESS STEEL DOG COLLARS

Stainless steel is the **first choice** for **dog sport athletes** and **professional trainers** – and for good reason. The exceptional combination of **strength, durability, and maximum breaking load** makes this material the proven standard for demanding training.

Through **specialized processing steps** and the **selection of premium materials**, we

create collars with outstanding properties: they are **seawater-resistant, corrosion-free, and extremely resilient** – day after day, training after training.

When purchasing, look for our **metal tag with the red dot** and the **HS-GERMANY INOX stamp on all rings and swivels** – your mark of quality from SPRENGER.

- **HIGH QUALITY, BREAKING LOAD, & DURABILITY**
- **SOLID MATERIAL – POLISHED**
- **ABSOLUTELY RUST-FREE**
- **SEAWATER-RESISTANT**
- **CARE WITH OUR DIAMOND PASTE (METAL POLISH)**

INFO
SPRENGER Training Collars

- SPRENGER branding as a distinctive feature on the center and side plates, as well as on the ring of the tag for all stainless steel models (1)
- The center plate ensures that the larynx is not subjected to any pressure on all original SPRENGER training collars (2)
- ClicLock closure can be retrofitted by replacing the center plate or a middle link (3)
- With tension stop along the length of the assembly chain (4)
- All links are rounded for maximum comfort and safety (5)
- Training with a training collar requires professional training and expertise

ULTRA-PLUS Training Collar with Center-Plate and Assembly Chain

Stainless steel

Feature: swivel and snap hook

- made of high quality stainless steel
- Quick release by using snap hook 60490
- Attach the chain by opening the hook
- ClicLock clasp can be retrofitted by replacing the center plate or a link

Article number	Length	Wire gauge	Ø Chain
50103 010 55	58 cm	3,20 mm	3,00 mm
50143 010 55	63 cm	4,00 mm	4,00 mm

ULTRA-PLUS Easy On Training Collar with Center-Plate and Assembly Chain

Stainless steel

Feature: 3 rings

- made of high quality stainless steel
- centered leash attachment by clasping the hook of the leash into both rings
- pull limitation on the length of the assembly chain
- allows for easier, one-handed use, as there is no need to open a clasp

Article number	Length	Wire gauge
50001 010 55	44 cm	2,25 mm
50080 014 55	60 cm	3,00 mm
50000 010 55	62 cm	3,20 mm

ULTRA-PLUS Training Collar with Center-Plate, Assembly Chain and Whale Tail Closure

Stainless steel

Feature: Whale Tail Closure and Ring

- made of high quality stainless steel
- the new whale tail closure makes it possible to lead the dog directly by the collar without having to reach into the chain (alternative to the short lead)
- pull limitation on the length of the assembly chain
- ClicLock clasp can be retrofitted by replacing the center plate or a link

Article number	Length	Wire gauge	Ø Chain
50082 014 55	60 cm	3,00 mm	3,00 mm

ULTRA-PLUS Training Collar with Center-Plate and Assembly Chain, 3,00 mm short

Stainless steel

Feature: 2 rings

- made of high quality stainless steel
- pull limitation on the length of the assembly chain
- ClicLock clasp can be retrofitted by replacing the center plate or a link
- smaller links with larger wire thickness for an even more precise impact
- recommended for very active dogs for which the 2.25 mm wire gauge is not sufficient (e.g. Malinois)

Article number	Length	Wire gauge	Ø Chain
50085 014 55	60 cm	3,00 mm	3,00 mm

ULTRA-PLUS Training Collar with Center-Plate and Assembly Chain, 3,00 mm short

Stainless steel

Feature: 1 ring and 1 swivel

- made of high quality stainless steel
- pull limitation on the length of the assembly chain
- ClicLock clasp can be retrofitted by replacing the center plate or a link
- smaller links with larger wire thickness for an even more precise impact
- recommended for very active dogs for which the 2.25 mm wire gauge is not sufficient (e.g. Malinois)

Precision REDEFINED – 3.0 MM SHORT LINK

3.0 MM SHORT LINK VERSION IMPROVED COMMUNICATION FOR HIGH-DRIVE BREEDS

The 3.0 mm short-link design delivers superior training effectiveness through an increased number of contact points on the neck. Specifically developed for **high-drive breeds with slim necks** – such as Malinois, German Shepherds, and similar working dogs – this innovative link configuration enables more precise corrections and clearer communication.

The short-link technology ensures that every correction is clear and consistent – giving handlers the precision they need when working with highly energetic dogs.

THE PERFECT BALANCE OF INFLUENCE AND STABILITY

The 3.0 mm short-link version is ideal for breeds where a 2.25 mm wire gauge would typically be considered for increased contact points, but where the dog's weight and strength require the durability and stability of a 3.0 mm/3.2 mm construction.

This design offers the best of both worlds – more contact points for effective communication combined with the robust construction needed for larger, more powerful dogs.

SPRENGER

KEY FEATURES:

- **More points of influence** – Shorter links allow increased impact for better pressure distribution
- **Ideal for slim necks** – Specifically designed for athletic breeds
- **Optimal wire gauge** – 3.0 mm stability for dogs that require more than 2.25 mm can provide
- **Professional performance** – Perfect for sport dogs, protection work, and advanced obedience training
- **Superior control** – Increased effectiveness with highly reactive dogs

*Right in between.
Exactly right.*

FOR THE *little ones* – WITH THE UTMOST CARE

Even small dogs deserve precise, safe, and finely tuned equipment. Our Micro Prongs are specially developed for their needs – lightweight, sensitive, yet reliable in use.

With a delicate wire gauge of 1.5 mm, they allow for particularly precise and gentle communication between human and dog, without compromising stability. Every detail is designed to ensure maximum control and comfort, even at a low weight.

The Micro Prongs are designed for dogs weighing up to 7 kg and are ideal for small breeds such as Chihuahua, Yorkshire Terrier, Maltese, Pomeranian, Papillon, Toy Poodle, Prague Ratter, Russkiy Toy, Bolonka Zwetna, Biewer Terrier, Havanese, Japanese Chin, Pekingese, or Chinese Crested Dog.

Made from high-quality materials and crafted with the precision typical of SPRENGER, our Micro Prongs stand for durability, functionality, and trust – even in the smallest format.

**GENTLE CUES.
STRONG BOND.**

BLACK

MINIMALIST IN LOOK, MAXIMUM IN PERFORMANCE – HIGH-QUALITY DOG COLLARS MADE OF BLACKENED STAINLESS STEEL

The proven quality of our stainless steel collars in elegant black – for those who want to combine functionality with modern aesthetics. The surface is blackened using a special electroplating process and then polished.

The black surface is not a hard coating, so through natural wear of the chain links

in use, a characteristic antique look with individual character develops. All technical properties of the high-quality stainless steel remain fully intact.

NOTE: For dogs with light coat colors or light-colored coats and a tendency to discolor, we recommend our **CUROGAN** chain collars.

When purchasing, look for our metal tag with the red dot and the **HS-GERMANY INOX** stamp on all rings and swivels – your quality seal from **SPRENGER**.

- HIGH QUALITY, BREAKING LOAD, AND DURABILITY
- SOLID MATERIAL – SURFACE BLACKENED & POLISHED
- ABSOLUTELY RUST-FREE
- SEAWATER-RESISTANT
- HIGH STRENGTH VALUES

NOTE
on Stainless Steel Black Finish

The black stainless steel quality gets its elegant black surface through an electroplating process, which is then polished. Since this is not a permanent coating, the chain develops an attractive antique finish through natural wear.

For dogs with very light or white fur, we recommend using a CUROGAN chain to avoid possible fur discoloration.

As unique as your journey.

Character, THAT GROWS WITH TIME.

Our black stainless steel products are refined through an electroplating process and then polished – for an elegant, deep black finish.

Since this is not a permanent coating, the surface changes with use: natural wear gradually creates an individual, slightly antique look.

This development is intentional and gives each product its unique character.

BLACK THAT LIVES. AND GAINS WITH EVERY USE.

Herw. Sprenger

MATT

PERFORMANCE MEETS DESIGN – PREMIUM DOG COLLARS IN MATT STAINLESS STEEL

Matt stainless steel is an innovation from SPRENGER – the perfect combination of proven functionality and contemporary aesthetics. All the technical advantages of our classic stainless steel collars meet a modern, elegant design.

A special manufacturing process gives the collars and fittings their characteristic matt surface. Since this is not a coating, the material develops a refined patina

through natural use – an authentic process that further emphasizes the high-quality appearance.

SPRENGER matt stainless steel collars combine all the features you know and appreciate from our polished stainless steel collars: maximum breaking load, seawater resistance, and durability – now in a modern look.

- HIGH QUALITY, BREAKING LOAD & DURABILITY
- ATTRACTIVE, ELEGANT APPEARANCE
- SOLID MATERIAL
- RUST-FREE
- SEAWATER-RESISTANT

Collar
Stainless steel matt

Feature: 2 rings
suitable for: short fur
medium length fur
long fur
Chain type: long links

- made of high quality stainless steel with a matt finish
- large chain links reduce hair breakage and are therefore optimal for long coat
- leashing with or without traction, depending on which ring is selected
- an individual tension limit can be added with a shackle

NeckTech

INNOVATION MEETS FUNCTIONALITY – HIGH-QUALITY CHAIN COLLARS WITH MODERN DESIGN

The NeckTech series from SPRENGER combines proven functionality with contemporary aesthetics – for those who value discreet elegance and practical versatility.

NeckTech Sport offers an innovative alternative to the classic prong collar.

The flat links make it unrecognizable as a training chain – discreet, functional, and effective in training.

NeckTech Fun combines the advantages of a robust chain collar with the look of a classic flat collar. The flat chain links are suitable for all coat lengths and impress with their versatile use in everyday life and training.

- FLAT CHAIN LINKS
- DISCREET & ELEGANT
- SUITABLE FOR ALL COAT LENGTHS
- ROBUST & DURABLE
- SPORT & FUN VARIANTS

CUROGAN

THE NICKEL-FREE ALTERNATIVE – HIGH-QUALITY DOG COLLARS IN CUROGAN

CUROGAN was specially developed for dogs that experience fur discoloration with conventional materials or are allergic to nickel. For over 90% of these dogs, CUROGAN is the ideal solution – nickel-free, skin-friendly, and reliable in use.

The characteristic rose-gold color from the high copper content makes CUROGAN collars

not only functional but also visually striking. Over time, the material develops a refined patina, which can be refreshed anytime with our Diamond Paste.

Due to the special material properties, we recommend regularly checking CUROGAN collars and replacing them at visible signs of wear – for maximum safety in training and everyday life.

- SPECIAL COPPER ALLOY WITH HIGH STRENGTH
- SOLID MATERIAL – POLISHED
- NICKEL-FREE
- RUST-FREE
- CARE WITH OUR DIAMOND PASTE (METAL POLISH)

i SPRENGER ID TAG

Every SPRENGER collar now provides an extra measure of safety: An integrated ID tag can be individually registered for your dog and owner. Registration is done easily online at www.animal-id.net.

If your dog ever gets lost, the finder can scan the QR code – and the GPS data quickly leads your dog.

A small detail that makes a big difference when it matters most.

Country Elegance, TIMELESS. STYLISH. DISTINCTIVE.

Inspired by British country house style, our new collection combines classic elegance with functional sophistication. Subtle colours, premium materials, and refined copper accents – designed for people who value quality and timeless design.

Whether out hunting, walking through autumn forests, or in the city: These leashes and collars are more than just accessories – they are an expression of a lifestyle. Simple, elegant and reliable, they accompany you and your four-legged friend through every adventure.

VERSATILE, COMPATIBLE & INDIVIDUALLY CUSTOMIZABLE

SPRENGER offers a wide range of high-quality, compatible fittings in different materials and surface finishes. The fittings and assembly chains shown here represent our proven standard assortment – field-tested, reliable, and immediately available.

In addition, our in-house production enables a high degree of flexibility: we manufacture custom fittings, assembly chains, and chain components precisely according to your requirements.

The minimum order quantity is generally 100 pieces, and may vary depending on the item, material, finish, and complexity.

- EXTENSIVE PRODUCT RANGE
- CUSTOM SPECIAL MANUFACTURING
- IN-HOUSE PRODUCTION DEPARTMENT
- SPRENGER QUALITY
