Value[®]

www.secomp-international.com

OUR Commitment to YOU!

Product Selection

All products are acquired from established and experienced manufactures across the globe, which lead the way within the computer accessory industry.

To a large extent they are produced according to our internal specifications. Our products comply with all relevant technical requirements including the RoHS, REACH, WEEE & CE regulations.

Quality Control

All our products are tested systematically according to DIN-ISO 2859 rules. They are tested under real working conditions, which shows confidence in the quality of product we supply to the trade. 

On Stock

All catalogue products are on stock or will be available within a short period of time. 

Competitive Price

High purchasing volume and long-term relationships with highly specialised manufactures gives you the advantage to buy always at competitive prices 'value for money'. 

Service & Support

We provide assistance and guidance for technical questions & product enquiries against our entire Computer Accessory product portfolio. 

roline[®]

Designed for Professionals

A Brand that you can trust!

ROLINE products are developed for professional users and differ considerably in their quality from comparable products in the IT environment. Their high compatibility in combination with other devices is excellent. Ideally for use in industrial environment. ROLINE branded products come with a 2-year warranty.

roline[®] GOLD

ROLINE GOLD — stands for high quality without any compromises!

To meet even the most demanding requirements, we have improved our PC and multimedia cables of our own brand ROLINE and launched our product line ROLINE GOLD already years ago in terms of shielding and contact safety in an even higher quality. ROLINE GOLD products come with a 2-year warranty.

Value[®]

Best Value for Money!

Quality products and highly aggressive pricing makes the VALUE range ideally suited for Distribution Partners. All VALUE products are supplied with a 1-year warranty.

roline[®] green

Environment-friendly!

A range of known ROLINE quality products marked only with a paper tag and build with TPE or LSOH material, without plastic bags and without plastic cable straps for use in eco-friendly environments.

ROLINE GREEN products come with a 2-year warranty.

VALUE UTP Patch Cord, Cat.6A / Class EA, Flat, Colored

- Prepared cable with unshielded RJ-45 plug on both ends
- Extra flat cable for special applications
- Durable cables thanks to kink protection
- Contact settings 1:1 in accordance with EIA/TIA 568, 8 lines
- Construction: internal line 8 wires
- Plug with gold plated contacts
- Colour: grey / red / yellow / green / blue / black / white

Available December 2022

NEW

NEWSSHOP – New Products

ROLINE Kink Protection Hood for RJ45, cuttable

- Designed to meet the various cable outer diameter demands from customers
- The new connector cover with the clear scale markings of jacket OD (outer diameter) provides more flexibility
- Can be cut to fit jacket OD from 5.5 mm to 8.5 mm
- Brings the advantage to use only one plug type of boots for different ODs, which reduces implicit inventory cost
- The used materials enhance the durability of the boot
- Cuttable with any sharp cutter, nipper and scissors
- Kink protection hood for RJ-45
- Package unit 10 connectors / bag

VALUE 19" 1U Cable Management Plate, C-Type, 5 Hooks, Cut-out front panel / Cable feed-through

DATA CENTER Product

19" cable guide 1UH, 5 loops, black, for horizontal or vertical cable management

- Cable routing for server or data cabinet environments
- Suitable for mounting on all 19" data racks and server racks so cables can be neatly laid- important for greater reliability of connections throughout the cabinet
- The cable eyelets provide an ideal bending radius for the network cables and help ensure a neat 19-inch cabinet, vertical or horizontal.
- Prevents cable stretching and other equipment from being concealed; also ensures optimum airflow as the cables produce less turbulence due to the optimum mounting
- Makes the installation cleaner and more professional
- 1U quality metal plate
- 5 large „C-type“ cable rings for cable routing
- Contents: 19"-Panel Plate

Order-No. – P.U.

VALUE / ROLINE USB Charging / Data Cables - Overview

- USB-C standards have changed in the past few years which includes an improvement of technology and hardware and the new devices which need faster data and charging support
- Previous versions of USB (1.1 / 2.0 / 3.0) could only handle a lower amount of power, USB-C has changed that.
- The newest type of connection with USB-C connector(s) is able to provide enough power (up to max. 240W / Extended Power Range (EPR) standard- 48V at 5A), that's why laptop charging (for most of the laptops types) will be easy to handle
- For some high power devices the previous standard with maximum of 100W (20V/5A) wasn't sufficient enough – for something like charging a laptop via USB-C connection, it could take a while until the device was fully charged
- The newest USB C cables in this range are to cover the needs of faster data and charging support with a length up to 3m
- Available options (the cable types vary in their specifications and capabilities)
 - lower data transfer with higher/faster charging possibility
 - higher data transfer with slower charging possibility
 - higher data transfer + faster charging possibility

VALUE USB4 Gen 3 Cables, with Emark, C–C

40Gbit/s

100W
20V / 5A

The major benefits of the USB4 includes faster transfer speeds (up to 40 Gbit/s), a better management of video bandwidth (using a process called „protocol tunneling“ that sends DisplayPort, PCIe and USB packets at the same time while allocating bandwidth accordingly) and optional compatibility with Thunderbolt 3 products.

- High quality USB4 Gen 3 cable with improved shielding
- With the reversible Type C connectors at both ends
- Gold-plated contacts for low wear at high plugging cycles
- Suitable for data transfer rates of up to 40 Gbit/s
- Supports USB Power Delivery to 20V / 5A

VALUE / ROLINE USB 3.2 Gen 2 to Gigabit Ethernet Converter, 1x PD Port

With this converter you connect your PC or notebook with USB 3.1 / USB 3.2 Gen 2 Type C interface to a Gigabit Ethernet network.

This converter is a cost effective solution to convert a USB 3.1 / USB 3.2 Gen 2 port into a 10/100/1000Base-T Ethernet port

- Supports 10/100/1000 Mbit/s auto-sensing capability
- Supports USB 3.1 / USB 3.2 Gen 2
- Type C Connector
- Bus powered
- 1x Port PD (power delivery), max. 100W
- Supports both full-duplex and half-duplex operation in Gigabit Ethernet
- Supports Windows XP/Vista/7/8/10, Mac OS X

Note: According to the current specifications of USB.org we have adapted the technical data of our USB 3 products. The new designation for the already known USB specifications has been changed to USB 3.2 Gen 1 (formerly USB 3.0 / USB 3.1 Gen 1) and USB 3.2 Gen 2 (formerly USB 3.1 / USB 3.1 Gen 2).

ROLINE USB 3.2 Gen 2 Type C Multiport Docking Station, 4K HDMI, 2x USB 3.2 Gen 2, 1x USB Type C PD (Power Delivery), 1x Gigabit Ethernet

The USB Type C Docking Station provides your MacBook, Ultrabook, Notebook or Laptop with a 4k capable HDMI port, 2x USB 3.0 / USB 3.2 Gen 2, 1x USB Type C PD (Power Delivery) and 1x Gigabit Ethernet!

- Plug & Play
- Aluminium housing in space grey
- Multiport Docking Station with HDMI connection, allows the expansion of a display or mirroring to another monitor, television or beamer.
- Max. Resolution: 3840x2160 at 30Hz
- Compact and flat design.
- System requirements: Windows 7/8/10 or MacOS X10.2 and higher

Connection to the mobile device:

- 1x USB Type C connector

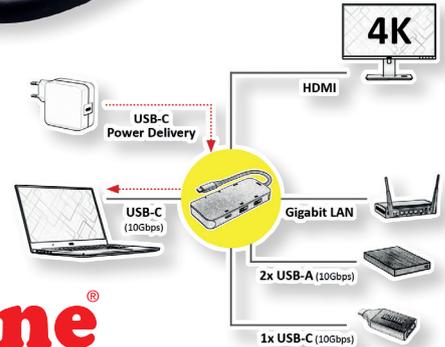

Connections for peripheral devices:

- 1x HDMI 4K video output: Mirror or expand your screen to a TV, monitor or projector.
- 2x USB 3.2 Gen 2 Type A ports (data transfer rate up to 10 Gbit/s), for connecting e.g. keyboard/mouse, USB HDD/SSD, etc.
- 1x USB 3.2 Gen 2 Type C
- 1x USB Type C PD (Power Delivery, max. 100W)
- 1x RJ45 for Gigabit Ethernet

Remark: Support of „Alternate Mode“ required

Note: According to the current specifications of USB.org we have adapted the technical data of our USB 3 products. The new designation for the already known USB specifications has been changed to USB 3.2 Gen 1 (formerly USB 3.0 / USB 3.1 Gen 1) and USB 3.2 Gen 2 (formerly USB 3.1 / USB 3.1 Gen 2).
