Who we are

Wentronic is the market-leading manufacturer and global distributor of accessories from the world of consumer electronics. Our diverse portfolio of strong private labels as well as promising niche products and global top brands makes us an interesting partner. What makes us unique is that our business partners have been saying for over 25 years that working with us is "beautifully uncomplicated and pleasant".

Our customers range from long-established to very young companies from the wholesale, stationary specialist retail and online retail sectors. Additionally, we offer many first-class industrial companies a comprehensive service package, from the development of their product to delivery to the desired destination. We deliver to every place in the world from several locations in Europe and Asia. Our expertise and a worldwide network make us a competent full-service partner and innovation driver for trade and industry. Around 4,500 companies appreciate our partnership-based approach and back this up with many years of trusting cooperation. This has made us one of the industry leaders in Europe and a reliable partner for many first-class distributors on all continents of the world.

"It's only good, if it's win-win."

Dietmar Wendt, company founder, 1992

This sentence still guides our daily work today. Always do a little more than customers expect - to make them even more successful. Our business model has changed considerably over the years. Our understanding of how we work with our partners, however, has not changed at all. We are committed to personal contact, solid relationships, commitment and authenticity. As allies of our customers, we see our passion in making their job as easy as possible. We understand their challenges and support them in mastering these at a rapid pace of technological development.

We're here for you

Global but still close

Today, the family-owned business Wentronic is an international group of companies with a holding structure, locations in Europe, Asia and Australia as well as more than 300 employees worldwide. That's why we are exactly where our customers need us. And as we are internationally networked for every need, we are also always happy to provide personal assistance.

In addition to a sales programme with over 12,000 products, our core competencies include one-to-one consultants who know and understand the regional markets, an international logistics network and digital or POS marketing. No matter whether our customers require only single items, small or large assortments - we support them creatively, competently and with the best service at a good price.

WORTMANN AG
IT - Made in Germany

Our OEM solutions – your success

OEM - Business

From production to packaging creation to the product with a unique identity: Our OEM service offers all 'Private Labeling' services from a single source: Providing our customers with the freedom to get on with their core business when selling articles under their own brand name.

Full-service partnership - for your overall concept

From sourcing and production, through quality control and design to logistics - our product lifecycle managers take care of the project personally and holistically in all processes.

Solutions by experts for experts

Industry - Solutions

Bespoke developed and produced products, individual solutions that really enrich our customers. This is our daily bread - just like original display packaging or blisters for an attractive product presentation. Especially appealing for prospective customers:

Permanent, proficient contacts who use their experience to drive each project forward. From A to Z:

- > Consulting for project preparation and product selection
- > Coordination of requirements with design and technical adaptations
- > Reliable implementation of standards and requirements (such as WEEE, REACH, RoHS, etc.)
- > Creation of packaging in the corporate design of your brand
- > Just-in-time delivery to your factory or warehouse

Design sketch and 3D model
of a USB mini-charger with
Apple cable

For you – always 'just in time'

Shipments

High availability, fast delivery - that's also important. Well equipped with state-of-the-art logistics solutions and extensive automation technology, we supply over 12,000 products from stock. Fast, reliable, from the heart of Europe.

- > 10,000 m² of storage space right by the motorway A2/A391
- > Automatic carton storage with shuttle robots
- > State-of-the-art transport and picking system
- > Outgoing delivery rate of up to 600 cartons per hour
- > Worldwide deliveries – reliable and on time
- > Individual incoterms like FCA, FOB or DDP

Shuttle robot technology

The perfect appearance – guaranteed.

True to the motto "Simply. Everything. Fits.", Goobay offers over 8,000 items with a fresh, modern and uncluttered look. The packaging concept is designed for maximum flexibility and individuality for the retail trade. The Goobay product range strives to be multichannel-compatible and to appeal to every sales partner - whether in the stationary area, in the intermediate trade or in online trade - with the right complete package. That's why the vast majority of Goobay articles are available in several types of packaging at the same time.

Marked with a silver plus, Goobay Plus products are presented in high-quality display packaging. The use of a viewing window ensures that interested customers can immediately get an impression of the product. In addition to classic product information, the display packaging also shows all the technical features and additional functions of the Goobay Plus product - all purchase arguments, presented clearly and comprehensibly.

Convincing product presentation with first-class, inexpensive and high-quality shelves.

The Goobay concept does not end with packaging: The Wentronic modular shelving system is suitable for the best possible presentation of products at the point of sale. With clear structures and interesting effects in a harmonious overall concept, the quality shelves put every product in the right light. All POS shelf solutions from Wentronic are individually tailored to the sales situation of our customers: uncomplicated, in an appealing design and suitable for any area - just as required.

Sleeves

- > Printed cardboard jacket
- > Available with or without Euro hangers

- > Dust-proof plastic bags or cardboard boxes
- > Simple, affordable, space-saving
- > Descriptions using labels or package bands

Retail Polybags

- > Two-color plastic bag with Euro-hanger
- > Affordable type of packaging in POS grid sizes
- > All sizes can be combined with retail packs (Retail Box)

Retail Blister

- > Classic clamshells in retail settings
- > Can be used in shops hanging
- > All sizes can be combined with retail packs (Retail Box)

Retail Box

- > Colored cardboard boxes or classic clamshells
- > All types in POS modular grid sizes and with Euro-hangers
- > Can be used in shops standing or hanging
- > Most extensive and attractive presentation of goods in retail settings

Cable reels

- > Space-saving packaging type for large quantities
- > Available as a plastic spool, cardboard box or wrapped
- > For the practical handling of yard goods

Have a goo day! With Goobay.

"Simply. Everything. Fits." is Goobay's mission. The comprehensive range offers everything you need to really simplify your daily networked life. Turning digital everyday life into a comfortable side issue. The Goobay product world is made to fulfil many wishes: At work, at home or on the road.

The Wentronic house brand is appreciated for its wide range, its reliable, uncomplicated functional quality and an extremely attractive price-performance ratio. The claim: always the right accessories for every electronic requirement. The product portfolio ranges from TV wall mounts and satellite dishes, cables for any AV connection, computer accessories, network technology and mobile products, to motion detectors, power supply units, cutting-edge LED lighting, workshop supplies and batteries.

Goobay Plus - when more is needed

Goobay is expanding its range for consumers looking for 'more'. The new brand line 'Goobay Plus' sees itself as the solution with that certain extra touch of design, performance, material and functionality. At the same time, it remains versatile, reliable and functional, because that's Goobay.

clicktronic[®]
entertainment.
pure.

What do our cables do with signals?

Nothing. But this is art.

The name Clicktronic stands for high-quality home cinema and HiFi accessories in 5-star quality; to support a viewing and listening experience like in the movie theater or concert hall. Clicktronic products are marked by first-class materials, the purest signal transmission, and an unwavering quality of workmanship. With their excellent image quality and dynamic sound reproduction, they are prized by hobby home cinema owners as well as professional users.

available since 2002 | about 300 items

Enhance me.

The Wentronic product range from the 3SIXT brand covers all areas of display protection: From hinged cases and protective film to display glass. A clear focus lies on benefits for the customer. Besides reliable protection for smartphones, 3SIXT impresses with sophisticated additional features such as compartments for credit cards, and guarantees a 100-percent accurate fit. A relevant packaging concept makes the products real eye-catchers at the point of sale.

Spectacularly packaged

3SIXT stands out at the point of sale: the eye-catching lifestyle packaging attracts customers. The uniform, high-quality retail concept ensures the necessary presence on the sales floor and conveys the sales arguments of the products in a concise manner. Clear image codes, the 3SIXT window box and additional multilingual information help here.

Technologies for an easier life

HP develops technologies that make life easier, for everyone and everywhere. The manufacturer is constantly developing new innovations that keep HP on the move and continually define new standards in the areas of printers, PCs and mobile devices. As a global partner of HP Accessories, Wentronic offers a comprehensive range of accessories that always has the right solution for every person, organisation and community worldwide.

E V E R K I®

Smart. Functional. Unique.

Everki is a manufacturer of premium quality multifunctional notebook bags and backpacks. Since 2011 Wentronic has been the exclusive sales partner of the American specialist for laptop bags up to 18.4" in Europe. The product range is distinguished by clever functions, outstanding quality, and a Limited Lifetime Warranty protection. Highlights such as the Checkpoint Friendly design or patented corner-guard protection system make the products ideal companions for business people, students, or gamers.

Memory for a lifetime

With the launch of the Strontium brand in 2017, Wentronic not only expanded its product range but also opened up a new product group. The new portfolio offers, among other things, high-performance SD cards, Micro SD cards, USB sticks, and adapters for smartphones, tablets and laptops. The ultra-light design, fast transfer and writing speeds, and reliable data protection with 4-proof technology make the products equally interesting to recreational and professional users.

available since 2017 | about 30 items | www.wentronic.com

Safe. Simple. Swiss.

SKROSS, the global market leader for high-quality travel adapters, revolutionized the market in 2002 with its all-in-one global adapter with country slider system. Wentronic added this and many other travel adapters and chargers to its product range in 2011. All of the products meet international safety standards. With the slogan 'Safety, Functionality, Innovation', SKROSS has established itself as a provider of top-quality travel adapters, and guarantees the ability to use any device, anywhere in the world.

At a glance – Goobay TV wall mounts

Every living situation is unique. To ensure a perfect view of the TV set at all times, viewing angle, tilt and swivel characteristics and, if necessary, extensibility are decisive.

The Goobay TV mounts for televisions stand out due to their reliable and practical features. Easy installation, secure hold and the unobtrusive design put each device in the best possible light. Extra flat and flexible, the products provide the perfect home cinema experience.

Depending on local conditions, three series are available: **FIXED, MOTION and FULL-MOTION**. They differ in terms of their flexibility and functions.

FIXED

- fixed viewing angle
- very close to the wall
- for almost invisible mounting

MOTION

- movable viewing angle
- inclinable
- close to the wall
- avoids unfavourable light incidence

FULLMOTION

- fully movable viewing angle
- tilts and swivels
- extensible
- small wall distance
- watch TV from any position in the room

The right wall mount for every television

In addition to the viewer's requirements, two factors are decisive when choosing the right wall mount:

VESA-NORM

When purchasing a wall mount, the compatibility with the TV set must be taken into account. The distances between the threaded holes are referred to as VESA standards. This VESA standard should be identical for TV set and wall mount. If the hole distances are 400 mm both horizontally and vertically, the VESA standard is 400 x 400.

Maximum load capacity

After checking the VESA standard, the maximum load is another decisive criterion.

The maximum load of the mount must exceed the weight of the TV set.

**Important: The inch and centimetre specifications of the wall mounts are approximate values.
The VESA standard and the maximum load are decisive.**

Which LNB type do I need ?

A LNB is a receiver unit for satellite frequencies and it is mounted in the focal point of satellite dishes. They take up the reception frequencies, amplify them, and transmit them further via a coaxial cable to receiver units. The abbreviation stands for Low Noise Block Converter.

Direct connection LNBs

Universal LNBs of this popular type have a built-in multiswitch. Each one must be connected to the receiver(s) via a separate cable. Various configurations are available with outputs for one, two, four, or eight receivers (single, twin, quad, octo).

Monoblock LNBs

This type of LNB combines two receiver units and one DiSEqC switch in a single housing. The Goobay product range offers the most popular two variants: a monoblock single and a twin LNB for two satellite positions at an angle of 6.2°. This corresponds to the orbital interval of ASTRA (19.2° East) and Hotbird (13.0° East).

Multiswitch-capable LNBs

As an alternative to direct connection, SAT systems can be operated with a central multi-switch. Typically, the receiver is a quattro LNB with four cables to the multiswitch. From there it branches further - in the Goobay product range to up to 16 users.

Unicable LNBs

This unicable LNB is particularly well suited for conversion of a cable connection for SAT reception. Unlike the universal LNBs, it is not necessary here to run a cable between LNB and receiver for each user. Instead the "Unicable Protocol" makes it possible to switch up to four antenna boxes in series.

Goobay

Universal Octo LNB

digital SAT-LNB (DVB-S2) for 8 devices (4K/HDTV/3D reception)

- works for direct connection w/o multiswitch
- completely encapsulated weather protection housing
- extendable humidity protection for gold-plated F-socket
- higher signal strength thanks to a 0.1 dB noise factor

67273 Retail Box

Goobay

Universal Quad LNB

digital SAT-LNB (DVB-S2) for 4 devices (4K/HDTV/3D reception)

- works for direct connection w/o multiswitch
- expandable with a quad-compatible SAT multiswitch
- completely encapsulated weather protection housing
- extendable humidity protection for gold-plated F-socket
- higher signal strength thanks to a 0.1 dB noise factor

67272 Retail Box

Goobay

Universal Quattro LNB

Digital SAT-LNB (DVB-S2) for use on multiswitches (4K/HDTV/3D reception)

- for multi-device SAT systems with multiswitch
- completely encapsulated weather protection housing
- extendable humidity protection for gold-plated F-socket
- higher signal strength thanks to a 0.1 dB noise factor

67271 Retail Box

Goobay

Universal Twin LNB

digital SAT-LNB (DVB-S2) for 2 devices (4K/HDTV/3D reception)

- works for direct connection w/o multiswitch
- completely encapsulated weather protection housing
- separate humidity protection for F-socket
- higher signal strength thanks to a 0.1 dB noise factor

67270 Retail Box

Goobay

Universal Single LNB

digital SAT-LNB (DVB-S2) for up to 1 device (4K/HDTV/3D reception)

- works for direct connection w/o multiswitch
- completely encapsulated weather protection housing
- separate humidity protection for F-socket
- higher signal strength thanks to a 0.1 dB noise factor

67269 Retail Box

Goobay

Monoblock Single LNB 6,2°, reversible

digital Multifeed-LNB for 1 device (4K/HDTV/3D reception)

- Squinting alignment for Astra (19.2°) and Hotbird (13°)
- DiSEqC Switching positions reversible by rotating part by 180° during installation
- Completely encapsulated weather protection housing
- Separate humidity protection for gold-plated F-socket
- Higher signal strength thanks to a 0.1 dB noise factor

Satellite multiswitch 5 In /

6 | 8 | 12 | 16 Out

router for a max. of 6 | 8 | 12 | 16 devices from one satellite

- compatible with one Quad- or Quattro-LNB
- built-in 22 kHz generator
- works for DVB-S and DVB-S2 (4K/HDTV/3D)
- additional terrestrial antenna input (DVB-T/DVB-T2 HD)
- integrated power supply with Euro plug

Technical Data

Max. subscriber	6 8 12 16
Inputs (number)	4 x SAT, 1 x terr. antenna, 1 x grounding
Inputs (type)	F-socket, clamp for grounding
Outputs (number)	6 8 12 16
Outputs (type)	F-socket
Switching commands	13 V/22 kHz, 18 V/22 kHz
Switching voltage	15 ($\pm 0,5$) V
Power consumption	max. 600 mA (6/8 outputs), max. 1000 mA (12/16 outputs)
Power supply	230 V AC (Euro)

Outputs	Dimensions (H x W x D)	
6	70 x 365 x 120 mm	67260 Retail Box
8	70 x 365 x 120 mm	67261 Retail Box
12	70 x 465 x 120 mm	67262 Retail Box
16	70 x 565 x 120 mm	67263 Retail Box

Satellite multiswitch 9 In /

4 | 6 | 8 | 12 | 16 Out

router for a max. of 4 | 6 | 8 | 12 | 16 devices from two satellites

- compatible with two Quad- or Quattro-LNB
- built-in 22 kHz generator
- two satellite positions switchable via DiSEqC 2.0
- works for DVB-S and DVB-S2 (4K/HDTV/3D)
- additional terrestrial antenna input (DVB-T/DVB-T2 HD)
- integrated power supply with Euro plug

Technical Data

Max. subscriber	4 6 8 12 16
Inputs (number)	8 x SAT, 1 x terr. antenna, 1 x grounding
Inputs (type)	F-socket, clamp for grounding
Outputs (number)	4 6 8 12 16
Outputs (type)	F-socket
Switching commands	13 V/22 kHz, 18 V/22 kHz
Switching voltage	15 ($\pm 0,5$) V
Power consumption	max. 1000 mA
Power supply	230 V AC (Euro)

Outputs	Dimensions (H x W x D)	
4	70 x 365 x 120 mm	67264 Retail Box
6	70 x 365 x 120 mm	67265 Retail Box
8	70 x 365 x 120 mm	67266 Retail Box
12	70 x 465 x 120 mm	67267 Retail Box
16	70 x 565 x 120 mm	67268 Retail Box

LNB/Multi Switch-Set

Quattro-LNB plus signal distributor for up to 8 TVs

- receives DVB-S and DVB-S2 (4K/HDTV/3D)
- low-noise signal converter with only 0.1 dB
- extendable weather protection for F-connector
- integrated 600 mA power supply with euro plug

Technical Data

Max. subscriber	4 x SAT, 1 x terr. antenna, 1 x grounding
Inputs (number)	F-socket, clamp for grounding
Outputs (number)	4 x LNB, 8 x multi switch
Outputs (type)	F-socket
Types of reception	DVB-S, DVB-S2
Signal amplification, legacy	57 dB typically
LOW frequency Low	9,75 GHz
LOW frequency High	10,60 GHz
Max. subscriber	8

67251 Retail Box

Goobay

Active ultraflat full HD DVB-T room antenna,
incl. LTE/4G filter

for reception of DVB-T / DVB-T2 HD with 30 dB gain

- for reception of digital TV signals in UHF (470 MHz - 790 MHz) range
- active DVB-T, and DVB-T2 antenna especially for HD/SD digital terrestrial TV reception
- the integrated amplifier (30 dB +/-3 dB) is supplied with power at 5 V (50 mA) power
- GSM/LTE/4G filter to avoid annoying interference by cell phones
- shielded coaxial cable and coaxial connector for interference-free reception
- ultraflat design (5 mm), stand or wall mounting

67183 Retail Box

Goobay

Active full HD DVB-T room antenna, incl. LTE/4G filter
for reception of DVB-T / DVB-T2 HD with 30 dB gain

- for reception of digital TV signals in UHF (470 MHz - 790 MHz) range
- active DVB-T, and DVB-T2 antenna especially for HD/SD digital terrestrial TV reception
- the integrated amplifier (30 dB +/-3 dB) is supplied with power at 5 V (50 mA) power
- GSM/LTE/4G filter to avoid annoying interference by cell phones
- shielded coaxial cable and coaxial connector for interference-free reception

67184 Retail Box

Goobay

Active full HD DVB-T room antenna, incl. LTE/4G filter
for reception of DVB-T / DVB-T2 HD (DTT) with 42 dB / 38 dB amplification

- for reception of analog and digital TV signals in the VHF (47 MHz - 230 MHz) and UHF (470 MHz - 790 MHz) range
- active DAB, DVB-T, and DVB-T2 antenna especially for HD/SD digital terrestrial TV reception
- the integrated amplifier (42 dB / 38 dB) is supplied with power at 5 V (50 mA) power
- omnidirectional and therefore no realignment (horizontal/vertical) necessary for differently polarized transmitters
- GSM/LTE/4G filter to avoid annoying interference by cell phones
- shielded coaxial cable and coaxial connector for interference-free reception

67179 Retail Box

Goobay

Active full HD DVB-T room antenna, incl. LTE/4G filter
for reception of DVB-T / DVB-T2 (DTT) with 35 dB / 30 dB amplification

- for reception of analog and digital TV signals in the VHF (174 MHz - 230 MHz) and UHF (470 MHz - 790 MHz) range
- active DAB, DVB-T, and DVB-T2 antenna especially for HD/SD digital terrestrial TV reception
- the integrated amplifier (35 dB / 30 dB) is supplied with power at 5 V (230 mA) power
- auto-gain-control for automatic adjustment of the optimal amplification factor
- active low noise technology for clear reception
- shielded coaxial cable and coaxial connector for interference-free reception
- option for simple wall installation

black 67181 Retail Box

white 67182 Retail Box

Goobay

Active DVB-T room antenna, incl. LTE/4G filter
for reception of DVB-T / DVB-T2 HD (DTT) with 30 +/- 3 dB amplification

- for reception of analog and digital TV signals in the VHF (174 MHz - 230 MHz) and UHF (470 MHz - 790 MHz) range
- active DAB, DVB-T, and DVB-T2 antenna especially for HD/SD digital terrestrial TV reception
- the integrated amplifier (30 +/- 3 dB) is supplied with power at 5 V (230 mA) power
- GSM/LTE/4G filter to avoid annoying interference by cell phones
- omnidirectional and therefore no realignment (horizontal/vertical) necessary for differently polarized transmitters
- shielded coaxial cable and coaxial connector for interference-free reception

67170 Retail Box

Goobay

Active DVB-T room antenna, incl. LTE/4G filter
for reception of DVB-T / DVB-T2 HD (DTT) with 20 dB / 16 dB gain

- for reception of analog and digital TV signals in the VHF (47 MHz - 230 MHz) and UHF (470 MHz - 790 MHz) range
- active DAB, DVB-T, and DVB-T2 antenna especially for HD/SD digital terrestrial TV reception
- integrated amplifier VHF 20 +/- 3 dB and UHF 16 +/- 4 dB
- GSM/LTE/4G filter to avoid annoying interference by cell phones
- shielded coaxial cable and coaxial connector for interference-free reception

51500 Retail Box

Goobay

Active DVB-T outdoor antenna, incl. LTE/4G filter
for reception of DVB-T / DVB-T2 HD (DTT) with 20 dB / 16 dB gain

- for reception of analog and digital TV signals in the VHF (47 MHz - 230 MHz) and UHF (470 MHz - 790 MHz) range
- active DAB, DVB-T, and DVB-T2 antenna especially for HD/SD digital terrestrial TV reception
- integrated amplifier VHF 20 +/-3 dB and UHF 16 +/-4 dB
- omnidirectional and therefore no realignment (horizontal/vertical) necessary for differently polarized transmitters
- GSM/LTE/4G filter to avoid annoying interference by cell phones
- optional installation on wall (flexible rod/pole) or mast
- UV-resistant weatherproof housing

51501 Retail Box

Goobay

Active DVB-T outdoor antenna, incl. LTE/4G filter
for reception of DVB-T / DVB-T2 HD (DTT) with 20/16 dB gain

- for reception of analog and digital TV signals in the VHF (47 MHz - 230 MHz) and UHF (470 MHz - 790 MHz) range
- active DAB, DVB-T, and DVB-T2 antenna especially for HD/SD digital terrestrial TV reception
- integrated amplifier VHF/UHF (20/16 dB) is supplied with power at 5 V power (w/o ext. power supply)
- omnidirectional and therefore no realignment (horizontal/vertical) necessary for differently polarized transmitters
- GSM/LTE/4G filter to avoid annoying interference by cell phones
- UV-resistant weatherproof housing
- optional installation on wall (flexible rod/pole) or mast

FM Radio dipole antenna with coax socket
for VHF/FM radio reception

- cable length: approx. 1.75 m
- dipole length: each approx. 80 cm
- connection: coax socket (IEC)

1.75 m 68850 Bulk

Goobay

Active DVB-T room antenna

18.5 dB / 21.5 dB antenna for reception of DVB-T / DVB-T2 HD (DTT) broadcasts

- for reception of analog and digital TV signals in the VHF (174 MHz - 230 MHz) and UHF (470 MHz - 862 MHz) range
- active DVB-T and DVB-T2 (DTT) antenna, for use indoors
- also suitable for reception of digital radio broadcasts (DAB)
- omnidirectional and therefore no realignment (horizontal/vertical) necessary for differently polarized transmitters
- the integrated amplifier is supplied with power at 5 V (100 mA) power
- GSM filter to avoid annoying interference by cell phones
- shielded coaxial cable and coaxial connector for interference-free reception

67087 Retail Blister

Goobay

Passive DVB-T room antenna

3 dB antenna for reception of DVB-T / DVB-T2 HD (DTT) broadcasts

- for reception of analog and digital TV signals in the VHF (174 MHz - 230 MHz) and UHF (470 MHz - 862 MHz) range
- active DVB-T and DVB-T2 (DTT) antenna, for use indoors
- also suitable for reception of digital radio broadcasts (DAB)
- omnidirectional and therefore no realignment (horizontal/vertical) necessary for differently polarized transmitters
- also suitable for RVs and boats
- shielded coaxial cable and coaxial connector for interference-free reception

67086 Retail Blister

Goobay

Passive DVB-T mini magnetic antenna

3 dB antenna for reception of DVB-T / DVB-T2 broadcasts

- for reception of analog and digital TV signals in the VHF (174 MHz - 230MHz) and UHF (470 MHz - 862 MHz) range
- passiv DVB-T and DVB-T2 HD (DTT) antenna, for use indoors or outdoors
- also suitable for reception of digital radio broadcasts (DAB)
- omnidirectional and therefore no realignment (horizontal/vertical) necessary for differently polarized transmitters
- shielded coaxial cable and coaxial connector for interference-free reception
- also suitable for caravan or boat

67090 Retail Blister

Goobay

Passive DVB-T car antenna

3 dB antenna for clamping to car window

- especially for digital terrestrial radio and TV reception
- passive DVB-T and DVB-T2 HD (DTT) antenna, for use in cars
- also suitable for reception of digital radio broadcasts (DAB)
- shielded coaxial cable and coaxial connector for interference-free reception

67118 Retail Blister

Goobay DVB-T Antenna-Adapter

Coaxial female > MCX male

- for the connection of an antenna cable (coaxial plug) to MCX antenna input e.g. a DVB-T USB stick

Goobay

100 dB outdoor coax- antenna cable, 2x shielded, CCS, black

UV and water resistant, for digital SAT- and CATV-cable systems

- outer sheath suitable for running in the ground or on walls
- digital-ready for HDTV using DVB-S/S2, DVB-T/T2, DVB-C/C2
- double signal shield for adequate protection over long distances
- meter scaling on the cable simplifies building installation

Attenuation at 20°C

What is the meaning of the official HDMI™ cable designations?

According to HDMI™ guideline 1.4 from November 2009, cable names may no longer contain version numbers. Instead, HDMI™.org distinguishes two performance classes with and without the name suffix "with Ethernet".

Standard HDMI™ cables

- > have passed the HDMI™.org category 1 performance test
 - > can transmit a 1080i/720p video signal at a transmission frequency of 75 MHz at a data rate of at least 2.2 GB/second
 - > are suitable for applications with normal requirements, such as 3D, HD-TV, or Full HD films

High Speed HDMI™ cables

- > have passed the HDMI™.org category 2 performance test
 - > can transmit a Full HD signal (1080 p) at a transmission frequency of 340 MHz at a data rate of at least 10.2 GB/second
 - > are suitable for applications with high requirements, such as 4K resolutions (2160p), 3D in Full HD, or Deep Color

Because the criteria for the category 2 performance test were designed only for cables of 8.0 meters long maximum, we designate all longer cables as standard HDMI™ cables, even if they were originally manufactured as high speed versions and show distinctly higher performance over longer distances.

... with Ethernet

Many types of HDMI™ cables are available optionally with an additional network channel. These cables offer the same performance and they also have a data channel for communication between two devices. The included HDMI™ Ethernet and Audio-Return-Channels (HEC, ARC) are of interest to users who would like to avoid having separate cables for Internet or audio bridging.

As of September 2013 there is a new HDMI standard: HDMI 2.0

The decisive innovations for users are support for 4k contents and a doubling of the refresh rate to 60 Hertz. The bandwidth was increased from 10.2 to 18 Gbit/s, which makes it possible to display 4k contents at 60 Hertz. HDMI 2.0 supports the 21:9 format.

HDMI 2.0 also means a step forward in audio. Up to 32 audio channels are supported, and the audio quality has been optimized by sampling rates of up to 1536 kHz. Current HDMI™ cables from Wentronic already support the HDMI 2.0 standard.

The label 'HDMI™ Premium Certified Cable' from HDMI Licensing LLC acts as both a warranty and a guide. It guarantees that the cable is 4K/Ultra HD-capable. Premium HDMI cables are also EMC-shielded and possess important features in terms of color depth (BT.2020) and contrast (HDR). The label includes a product-specific QR code, which exposes counterfeits.

HDMI™/4K2K 7.1 audio extractor

extracts the audio signal from the HDMI™ source and provides it as a separate transmission

- complies with HDMI, HDCP 1.2
- compatible with high-bit-rate (HBR) audio
- supports HDMI™ audio sampling rates of up to 192 KHz
- supports optical S/PDIF audio sampling rates of up to 192 KHz
- supports 4K2K, 3D-capable
- easy to install and use

58967 Retail Box

Which HDMI™ splitter for which purpose?

As a full digital transmission standard HDMI™ is perfectly suitable for loss-free signal splitting. Technically, there are four different device types:

Splitter

- > Functional principle comparable to a multiple outlet
- > One HDMI™ signal is cloned and distributed without loss to multiple screens
- > Example of use: TV walls in businesses or at trade fairs

Switch

- > Reverses the functional principle of the splitter
- > Takes multiple input signals and makes them switchable as needed at a single output
- > Example of use: TVs with too few HDMI™ jacks for all source devices

Switch/Splitter

- > Like a switch, it makes multiple switchable input sources available and, like a splitter, has multiple signal outputs
- > One of the input signals can be selected for the connected screens > Example of use: Easy-to-use feature for conference or training rooms

Matrix

- > Expands the functional principle of combined switch/splitter
- > Can also receive multiple signals and connect to multiple screens > However, the output signal does not have to be the same on all screens; instead, the signals can be combined as desired for each output
- > Example of use: Simultaneously viewing a sports transmission on the TV while running the game console on the beamer

60808

Clicktronic Advanced Full HD Switch 4x1 | 6x1

switches up to 4 | 6 HDMI™ signals to a screen

- supports 3D and HDTV to Full HD (1080p)
- easily accessible HDMI™ input on the front panel
- integrated intelligent automatic switching to active inputs

What differences have to be considered for DVI cables?

The Digital Visual Interface is an electronic interface for transmission of video data between graphics cards and displays. Digital signal transmission achieves better video quality than a VGA interface.

Via DVI, only images are transmitted, but no audio signals. Depending on the pin assignment, the interface can transmit analog, digital, or both analog and digital signals. Higher resolutions are achieved through additional pins using the dual-link method.

DVI-A (analog)

DVI-A is compatible with VGA. The quality of transmitted video signals is identical to that of the VGA interface.

- > Exclusively with 12+5 switched contacts
- > For production reasons, analog DVI connectors are often manufactured with 18+5 or 24+5 pins, but they are then only partially switched.

DVI-D (digital)

- > Dual-link: 24+1 contacts switched (max. WQXGA 2560×1600)
- > Single-link: 18+1 contacts switched (max. Full HD 1920 × 1080)

DVI-I (integrated – analog and digital)

- > Dual-link: 24+5 contacts switched
- > Single-link: 18+5 contacts switched

DVI-D and DVI-I are compatible with HDMI™; however, only for relaying the video signal.

USB-C™ – One for all

If you have several mobile devices, you also need a multitude of different plugs, cables and adapters. The new USB Type C solves this problem because the basic idea behind the new USB standard is: One cable for everything. The small, twist-proof connection takes up little space and therefore also fits into super-slim notebooks and thin smartphones of the latest generation. The highlight: USB-C™ not only transfers data, but also video and audio signals and even charging current for smartphones, tablets or notebooks. USB-C™ is not only a classic USB port for connecting the keyboard and mouse, but also a display port for external monitors, HDMI™ for TVs, replacement for the headphone jack and a charging connector for mobile devices. USB-C™ is supported by various operating systems such as MacOS, Android, Windows, Google and others.

Why USB-C™?

USB-C™, also known as USB Type C, is the latest USB connector type. It was developed by the USB Implementers Forum (USB-IF), a group of leading electronics companies such as Apple, Intel, Dell and Belkin.

USB-C™ can do more than previous USB ports and prevents cable clutter: You only need this single type of cable to connect your monitor, mobile device or headphones to your PC or notebook and get power at the same time.

High-performance

Twist-proof plug

1 port for
smartphones,
tablets & PCs

Loading & data transfer
with one connection

Designed for
10,000 cycles

USB-Version	USB 1.0/1.1		USB 2.0	USB 3.0/3.1 Gen1	USB 3.1 Gen2
	LowSpeed	FullSpeed	Highspeed	SuperSpeed	SuperSpeed+
Data rate (Mbit/s)	1.5	12	480	5.000	10.000

The future of USB-C™

USB-C™ is more than a new technology trend - it's a new standard. USB-C™ is being introduced across the board to enable ease of use, high speed and universal applicability across different devices.

USB-C™ will be used more and more frequently in the future and integrated into new devices. But that doesn't mean you have to replace all your existing devices. Your new USB-C™ device (such as a laptop) will still be compatible with all your devices such as smartphones, tablets, mouse, printer, etc. All you need is the right USB-C™ cable or USB-C™ adapter.

USB-C™ is user-friendly

The USB-C™ connector does not have to be plugged in in a specific orientation. It can be plugged in on both sides and is twist-proof, which is why it always works, no matter how you align it when plugging it in.

USB-C™ is more powerful

USB-C™ is faster than all other USB types. The new standard can transfer data of up to 10 Gbit/s (gigabits per second). This corresponds to the transfer of a complete HD movie in just 30 seconds. USB-C™ is therefore up to 20 times faster than USB 2.0.

In a nutshell: USB-C™ vs. USB 3.1

What is what?

Although USB-C™ and USB 3.1 were developed at the same time, they are not the same. Behind the name „USB 3.1“ is a new technology. The USB-C™ connector, on the other hand, provides the functionality to support the new USB 3.1 technology.

From USB 3.0 to 3.1

USB 3.1 is an upgrade from the well-known USB 2.0 and the newer USB 3.0, and offers significantly faster data transfer rates.

New, twist-proof plug shape

The new USB-C™ plug has a modified shape and therefore does not fit into sockets of older USB generations. Adapters and USB-C™ cables help to bridge the gap.

More power

With a power output of up to 100 watts or a current of 5 amps, USB-C™ cables can power almost anything, from laptops to large, high-resolution monitors.

Ultra HD experience with 4K resolution

USB-C™ cables can transfer Ultra HD with an image resolution of 4K to USB-C™ and HDMI™ displays. This corresponds to four times the HDTV resolution.

What to consider with twisted pair network cables?

"Twisted Pair" is a network cable containing crossed-over, twisted, or stranded pairs of pairs of cores. This twisting in pairs and an electrically conductive shield avoid interference from external magnetic alternating fields, which can be caused by other cables that conduct electricity. Likewise, crosstalk between neighboring pairs of conductors within the cable is reduced.

Many cables have a halogen-free outer sheath, in order to avoid producing any dangerous gas, smoke, or acid in case of fire (abbreviation: LSZH or LS0H).

Shielding

There are two basic types of cable: shielded and unshielded. In contrast to the shielded cables, unshielded cables offer distinctly poorer transmission quality, which is noticed negatively at high transmission rates and in long lines. The standard ISO/IEC-11801 governs designations for shielding in the uniform form XX/YZZ:

> XX stands for the shielding of the outer sheath
 U: unshielded
 F: foil shield
 S: braided shield
 SF: braided and foil shield

> Y stands for the shielding of the core pairs
 U: unshielded
 F: foil shield
 S: braided shield

> ZZ always stands for TP:
 twisted pair

Categories

Twisted pair cables are standardized and divided into performance categories. Each category covers various requirements and quality specifications. The current categories 5 to 7 are specified in ISO/IEC 11801. In addition, there is a European Norm EN 50173, in which twisted pair cables are divided into classes A and F.

ISO/IEC 11801	EN 50173	Cable type	max. frequency	Impedance	Application
Cat. 5	Class D	UTP, S/FTP	100 MHz	100 Ohm	100Base-TX, SONET, SOH
Cat. 5e	Class D	UTP, S/FTP	100 MHz	100 Ohm	1GBase-T
Cat. 6	Class E	UTP, S/FTP	250 MHz	100 Ohm	1GBase-T, 155-MBit-ATM, 622-MBit-ATM
Cat. 6 _A	Class E _A	S/FTP	500 MHz	100 Ohm	10GBase-T
Cat. 7	Class F	S/FTP	600 MHz	100 Ohm	10GBase-T (bis 100 meter)
Cat. 7 _A	Class F _A	S/FTP	1000 MHz	100 Ohm	10GBase-T 40GBase-T and 100GBase-T (limited)

RJ45 patch cord S/FTP (PiMF), with CAT 7 raw cable

LSZH, RJ45 plug, CU

- LAN / network cable to connect network components with 2 x RJ45 connectors
- Cat 7 tested up to 600 MHz
- with 50µ gold plated PINs
- pairs screening: PiMF (pairs in metal foil) + outer shield: braiding
- with length indication on the slimline strain relief
- with latch protection
- pair-sequence acc. to EIA/TIA 568B

Portable RJ45 Network Cable Reel extension

high-quality, shielded, halogen-free CAT 7A S/FTP (1200 MHz) installation cable on a robust cable reel

- ideally suited for portable use, such as at events, presentations or training sessions
- ideal for short-term LAN connections across long distances, such as measuring sections or in outside broadcast vehicles
- Keystone CAT 6A jack and integrated CAT 6A data socket with dust protection cap
- metal base for secure, stable support
- cable and coil in signal colour for easier recognition
- includes CAT 6A test report
- rubberised handle and buckle for firm grip and locking

CAT 6a Duplex- patch cable, S/FTP (PiMF), grey

LSZH halogen-free, CU

- double shielded LAN/network cable to connect network components with 2 x RJ45 connectors
- Cat 6(A) tested
- with 3µ gold plated PINs
- pairs screening: PiMF (pairs in metal foil) + outer shield: braiding
- with length indication on the slimline strain relief
- with latch protection
- pair-sequence acc. to EIA/TIA 568B

Material cable sheath	LSZH
Cable sheath diameter (approx.)	6.2 mm
max. bandwidth	500 MHz
Cable type	round cable
Inner conductor material	CU (copper)
AWG	26/7 (stranded)
Shielding class	S/FTP (PiMF)
Number of shieldings	2 x
Type 1, shielding	foil (alu) PiMF
Type 2, shielding	braid (alu) overall shield
Connection, type	RJ45 male (8P8C)
Connection, shielding	yes
Latch protection	unilaterally

Goobay

CAT 6a extension cable, S/FTP (PiMF) with mounting flange

- mounting, for example, to a slot bracket, cable duct or an enclosure with corresponding opening
- with mounting flange, hole spacing (thread): 25 mm
- double shielded network cable extension for extending your network components
- pairs screening: PiMF (pairs in metal foil) + outer shield: braiding
- with 3µ gold plated PINs
- plug with latch protection, molded RJ45 socket
- pin out: 1:1, pair-sequence acc. to EIA/TIA 568B

CAT 6 Crossover-patch cable, S/FTP (PiMF),

grey, green

LSZH halogen-free, copper

- double shielded crossed LAN/network cable to connect network components with 2 x RJ45 connectors
- with 3µ gold plated PINs
- pairs screening: PiMF (pairs in metal foil) + outer shield: braiding
- with length indication on the slimline strain relief
- with latch protection
- croos-wired pair-sequence acc. to EIA/TIA 568A/B

Material cable sheath	LSZH
Cable sheath diameter (approx.)	6 mm
max. bandwidth	250 MHz
Cable type	round cable
Inner conductor material	CU (copper)
AWG	28/7 (stranded)
Shielding class	S/FTP (PiMF)
Number of shieldings	2 x
Type 1, shielding	foil (alu) PiMF
Type 2, shielding	braid (alu) overall shield
Connection, type	RJ45 male (8P8C)
Connection, shielding	yes
Latch protection	both sides

Goobay

CAT 7A+ network cable,
S/FTP (PiMF), blue
CU, AWG 22/1 (solid), LSZH

- non-terminated data-/installationcable for processing and installation with LSA connection technology for indoor using
- suitable for applications: up to Class F(A) 1200 MHz
- double shielded twisted-pair LAN cable
- pairs screening: PiMF (pairs in metal foil) + outer shield: braiding
- Power over Ethernet (PoE/PoE+)

Tool-free RJ45 network connector UTP shielded

for 3 different cable OD: up to 5.2mm/ 6.4mm/ 7.5mm

- UTP unshielded with strain relief
- with cable reducer that can be used for three different cable diameters: up to 5.2 mm/6.4 mm/7.5 mm
- for stranded and solid inner conductor (AWG 22 to 26)
- easy and tool-free assembly
- simply press down on the connector housing
- supports transmission rates on the order of gigabits
- cable contacts marked in colour

CAT 6a	59227	Bulk
CAT 6	44738	Bulk

Goobay

Tool-free RJ45 network connector UTP shielded

max. cable Ø: 5 mm

- UTP unshielded with strain relief
- suitable for round cable, max. cable outer diameter: 5 mm
- for stranded and solid inner conductor (AWG 24 to 26)
- easy and tool-free assembly
- simply press down on the connector housing
- supports transmission rates on the order of gigabits
- cable contacts marked in colour

What do we need to know about fiber optic cables?

A fiber optic cable (FOC) transmits data using optical signals. In copper wires, electrical signals move from one end to the other as electrons; in fiber optic cables, this function is carried out by photons.

Advantages and disadvantages compared to CAT cables

- > FOCs can cover large distances up to 2,000 m without amplifiers
- > they provide great bandwidth of up to 100 Gbit/s and are superior to any other cable or radio system in every discipline
- > FOCs are resistant to electromagnetic interference (EMI) and can therefore be installed as close as desired to other data lines
- > because of their plastic core (polymer optical fibers) and the lack of any need for shielding, FOCs are especially light and thin
- > in FOCs, data packets are transmitted at light speed (300,000 kph) and have very low cable propagation times

- > FOCs are more sensitive than CAT cables and can be damaged much more easily, especially by kinking
- > installation requires greater know-how and more extensive technical equipment
- > the initial costs for components and installation of a FOC network – including the test devices, switches, and the cables themselves – are higher
- > unlike the CAT area, for FOC patch cables, there are many different connector types – Goobay offers the most frequently used combinations from stock

Fiber and performance categories

Analogous to copper technology, FOCs are also broken down into uniform, standardized classes. The international specifications for fibers are found in ISO/IEC 11801 and 24702. The increasing counters OM2 (orange), OM3 (aqua), and OM4 (violet) indicate the increasing bandwidth needs from the Mbit to the Gbit range. The resulting maximum transmission distances for multimode fibers for "Ethernet" use are:

Ethernet speed		Wavelength	OM2 (orange)	OM3 (aqua)	OM4 (violet)
100 Mbit/s	100BASE-SX	850 nm	300 m	300 m	-
	100BASE-SX	1310 nm	2,000 m	2,000 m	2,000 m
1 Gbit/s	1000BASE-SX	850 nm	500 m	1,000 m	1,000 m
	1000BASE-LX	1310 nm	500 m	500 m	500 m
10 Gbit/s	10GBASE-SR	850 nm	80 m	300 m	500 m
	10GBASE-LR(M)	1310 nm	220 m	220 m	220 m
40 Gbit/s	40GBASE-SR4	850 nm	-	100 m	125 m

Which telephone connection systems are available?

In Germany since 1987, there has been a uniform connection standard for terminal devices. It is abbreviated TAE, which stands for "Telekommunikationsanschlusseinheit" or telecommunications connection unit. TAE boxes ensure that even laypersons can connect phones and add-on devices so that they will function, and they also prevent accidental parallel switching of telephones.

Jacks and connectors with F-coding are used for connection of telephones – the F stands for "Fernsprechapparate" or telephone devices. For add-on devices, such as answering machines, modem, or fax, the N-coding is used – N for "non-telephone". Each of the two types of connectors also has a different external form.

The distinctly more up-to-date technology is abbreviated "UAE" for "Universal-Anschluss-Einheit" or universal connection unit. Their connectors and jacks are also known under the designations "western" and "modular". The UAE uses standardized RJ connectors (Registered Jack):

Designation		Width	Housing contacts/ Assigned		Application
 3 ... 6	RJ10	4P4C	7.7 mm	4 4	Spiral receiver cord, telephone receiver lines
 3 ... 6	RJ11/RJ14	6P4C	9.6 mm	6 4	TAE connector cable with two lines
 2 ... 7	RJ12	6P6C	9.6 mm	6 6	TAE connector cable with three lines
 1 ... 8	RJ45	8P8C	11.6 mm	8 8	ISDN

LED-Lighting

LED bulbs are recognised as the most modern form of lighting and for good reason. In contrary to older traditional technologies such as filament and halogen, LED uses far less energy and has longer durability. High switching capability (on/off) and low heat generation also characterise LED lamps. These advantages add little to the purchase price, which is often slightly higher than traditional incandescent bulbs.

When does it make sense to purchase LED lamps?

For every room where the lights remain on for longer than 2.5 hours/day on average throughout the year as you will already have saved money within a year!

Which colour temperature?

Based on their Degrees Kelvin rating, LED lighting is classified into three colour temperatures: warm white, neutral white and cold white. The light of a classic incandescent bulb is matched by a warm white LED lamp with 2700 K. The LED colour rendering index is also significant: values above 80 Ra guarantee good colour fidelity and provide a lively, natural perception.

living spaces & bedrooms	bathrooms & multifunction rooms	workshops, laboratories & factories
		
1800–3300 K ambient light warm white	3300–5500 K classic light neutral white	ab 5500 K daylight cold white
 Goobay LED refrigerator lamp 1.8 W warm white 2700 K 80 Ra p/n 30565	 Goobay LED T8-Tube 10 W neutral white 4000 K 80 Ra p/n 44332	 Goobay LED Spotlight 2 W cold white 6200 K 80 Ra p/n 30589

Your advantages

- save up to 90 % energy costs compared to a traditional light bulb
- LED lights up immediately when switched on
- no heat generation
- very long life! Up to 25 times longer
(traditional light bulb 1000 h vs. LED 25000 h)

A+

Operating voltage	230 V (AC)
Beam angle	300 °
Dimensions	50 x 18 mm

Goobay

LED refrigerator lamp, 1.8 W

- impact-resistant housing for additional reliability outdoors
- provides light for 65 hours and carry strap for optimal comfort
- three year guarantee and includes 2 high-energy AA batteries

45198 Retail Blister

Varta

Varta LED Day Light 2D (17611)

the perfect choice for any outdoor application

- shock-resistant three-component housing made of durable ABS plastic
- splash-proof for greater reliability when used outdoors
- practical tracings with roll stop and suspension ring

Constant current LED Transformer

Dimmable, 350 mA CC for LEDs up to 15 W | 24 W total load

- DC current source for LEDs with electronic ballast unit
- flat design for space-saving installation
- approved for installation in furniture
- safe electronic separation as per protection class II
- constant output current for series circuits
- in combination with almost every leading-edge or trailing-edge phase dimmer suitable to dim LEDs

Output

max. amperage	Power	Dimensions
---------------	-------	------------

350 mA	15 W	123.7 x 44.6 x 19.2 mm
	24 W	55400 Retail Box

24 W	157.3 x 35.2 x 23.5 mm	55402 Retail Box

Hallway PIR/Acoustic motion sensor

flush-mounted wall mounting; 160° detection, 9 m range, indoor use (IP20), suitable for LEDs

- sensor reacts on movement, as well as on sound/noise
- especially designed for in-house/hallway lighting, lamps, LEDs, etc.
- accurate detection of people and animals in darkness or twilight
- designed for easy and fast flush-mounting

95171 Retail Box

Goobay

PIR motion sensor

flush-mounted wall mounting; 160° detection, 9 m range, indoor use (IP20), suitable for LEDs

- especially designed for in-house/hallway lighting, lamps, LEDs, etc.
- accurate detection of people and animals in darkness or twilight
- designed for easy and fast flush-mounting

Goobay

PIR motion sensor

flush-mounted ceiling mounting; 360° detection, 8 m range, indoor use (IP20), suitable for LEDs

- especially designed for indoor lighting, lamps, LEDs, etc.
- accurate detection of people and animals in darkness or twilight
- multi adjustable sensor for optimal detection setup
- designed for the easy and quick ceiling flush-mounting

71362 Retail Box

Goobay

PIR motion sensor

flush-mounted ceiling mounting; 360° detection, 6 m range, indoor use (IP20), suitable for LEDs

- especially designed for indoor lighting, lamps, LEDs, etc.
- accurate detection of people and animals in darkness or twilight
- multi adjustable sensor for optimal detection setup
- designed for the easy and quick ceiling flush-mounting

95173 Retail Box

Goobay

PIR motion sensor

flush-mounted ceiling mounting; 360° detection, 6 m range, indoor use (IP20), suitable for LEDs

- miniaturisation allows almost invisible mounting in raised or cavity ceilings/lamps
- especially designed for indoor lighting, lamps, LEDs, etc.
- accurate detection of people and animals in darkness or twilight
- multi adjustable sensor for optimal detection setup
- designed for the easy and quick ceiling flush-mounting

96006 Retail Box

Goobay

PIR motion sensor

surface-mounted wall mounting; 180° detection, 12 m range, outdoor use(IP44), suitable for LEDs

- especially usable for outdoor lighting, lamps, LEDs, etc.
- accurate detection of people and animals in darkness or twilight
- rotatable and tiltable sensor for optimal corner to corner detection
- designed for easy and quick on-wall mounting
- splash-proof thanks to protection class IP44

NEW**Goobay**

Set of 3 lamp sockets E27 with radio remote control
ideal for storerooms, attics, cellars, garages, hallways and stairwells

- no installation required – immediately ready for use
- works through doors, glass, thin walls and furniture
- independently switch the three lamp sockets on and off via radio remote control
- can be combined with three E27 LEDs (max. 20 W), energy-saving lights (max. 20 W) or lightbulbs (max. 60 W)
- max. detection range 30 m (in open spaces), 360° coverage angle
- transmission frequency: 433.92 MHz

55499 Retail Box

**NEW****Goobay**

E27 lamp socket with sound & light sensor
ideal for storerooms, attics, cellars, garages, hallways and stairwells

- no installation required – immediately ready for use
- automatic dimming function activation (< 10 lux)
- automatically switches on when noise is detected (60 dB and higher), such as voices, clapping, footsteps and similar
- automatically switches off when the surroundings are silent, switch-off delay approximately 45 s
- can be combined with three E27 LEDs (max. 20 W), energy-saving lights (max. 20 W) or lightbulbs (max. 60 W)
- 360° coverage angle

55500 Retail Box

**NEW****Goobay**

E27 lamp socket with microwave & light sensor
ideal for storerooms, attics, cellars, garages, hallways and stairwells

- works through doors, glass panes and thin walls
- automatic function activation at dusk (≤ 3 lux)
- automatically switches on when motion is detected; adjustable detection sensitivity
- switch-off delay can be adjusted from 15 to 300 seconds
- functionality not impaired by high ambient temperatures (for example, in summer)
- can be combined with three E27 LEDs (max. 20 W), energy-saving lights (max. 20 W) or lightbulbs (max. 60 W)
- installation height: 2–3.5 m, detection range: 3–7 m, 360° coverage angle

5 V - 15 V Universal Power Supply

incl. 8 DC adapter - max. 36 W and 3 A

- provides stabilized direct current of 3 A
- output voltage from 5 V to 15 V selectable via rotary switch
- 8 adapter connectors for connection of popular electrical devices
- up to 90% energy savings in stand-by mode
- thanks to wide-range input of 100 V to 240 V, perfectly suited for worldwide use
- fuses protect against short circuit, overload, and overcurrent

59034 Retail Box

Goobay

6 V - 15 V Universal Power Supply

incl. 6 DC adapter - max. 60 W and 5 A

- provides stabilized direct current of 5 A
- output voltage selectable from 6 V to 15 V
- 6 adapter connectors for connection of popular electrical devices
- up to 94% energy savings in standby mode
- thanks to wide-range input of 100 V to 240 V, perfectly suited for worldwide use
- fuses protect against short circuit, overload, and overcurrent

54605 Retail Box

Goobay

9 V - 24 V Universal Power Supply

incl. 7 DC adapter - max. 24 W and 1.5 A

- provides stabilized direct current of 1.5 A
- output voltage selectable from 9 V to 24 V
- 7 adapter connectors for connection of popular electrical devices
- up to 94% energy savings in stand-by mode
- thanks to wide-range input of 100 V to 240 V, perfectly suited for worldwide use
- fuses protect against short circuit, overload, and overcurrent

54799 Retail Box

Goobay

5 V Switching Power Supply

with 5.5 mm x 2.1 mm plug - 5 W and 1 A

- provides stabilized direct current with a current of 1 A
- 5.5 mm x 2.1 mm male coaxial power connector for connection of popular electrical devices
- up to 90% energy savings in stand-by mode
- wide-range input of 100 V to 240 V for worldwide use
- fuses protect against short circuit, overload, and overcurrent

The right adapter for every trip

Worldwide there are a total of 14 different plug types. In addition, there are often different plug standards in a single country. You may encounter both 2- and 3-pin sockets or even two completely different standards. The 2-pin Euro plug commonly used in Germany, for example, also fits into many 3-pin sockets such as those found in India, Israel, Denmark, Brazil, Switzerland and Italy. By contrast, it is not possible to use 3-pole plugs in 2-pole sockets:

The difference between 2- and 3-pole plugs

The fit of an adapter depends on whether the device to be supplied with power is unearthing or earthed. With a few exceptions, the difference can be easily seen by looking at the plug: 2-pin plugs have two pins, while 3-pin plugs have three pins.

Exception: The safety plug with earthing contact

The "safety plug" is an exception. This is a 3-pin plug with only two pins. Grounding is ensured via the metal contact surfaces on the plug sides. The plug itself is round, the pins are slightly thicker (\varnothing 4.8 mm) than those of conventional Euro plugs. Attention: The plug with earthing contact is easily mistaken for the similar Euro plug. It also has two pins, but has no grounding and is flat. The pins are also slightly thinner (\varnothing 4 mm).

British plug

The British connector variant is a special type. It is particularly widespread in Great Britain, but also in many former British colonial areas.

The British plug always has three angular pins but can be either 2-pole or 3-pole. The difference between 2- or 3-pole connectors can only be seen in the material: British 3-pole connectors have three pins, all made of metal. British 2-pole plugs also have three pins, but one is made of plastic.

A diagram showing a 3-pin British electrical plug on the right and a 3-pin electrical socket on the left. The plug has three angular pins. The socket is a hexagonal shape with three corresponding holes for the pins.

A photograph showing a black 3-pin British plug with three angular pins being inserted into a white 3-pin electrical socket. The socket has three rectangular holes for the pins.

Triple socket with connection cable

2 power sockets + 1 double USB socket > safety universal plug

- suitable for safety universal plug for cigarette lighter and standard sockets
- for cooling boxes or devices that are suitable to be operated with 12-24 V or 5 V USB
- suitable for smartphones, navigation devices, MP3 players, tablets, as well as other devices, which can be charged via USB and require a high charging current
- with integrated voltage converter
- max. 16 A; USB max. 5 A (2x 2.5 A)

2.00m 65032 Retail Blister Modell 67325500

ProCar

Triple Socket Connector

car universal plug > 3 car connector

- for operating 3 electrical devices at the same time in cars, mobile homes, trucks and boats
- 3 car-cigarette lighter socket (inner ø 21 mm); max. 3x 5 A

0.25m 65049 Retail Blister Modell 67889050

ProCar

Car twin connector

safety universal plug for cigarette lighter and standard sockets > 2 cigarette lighter socket

- for the simultaneous operation of 2 consumers in the car
- cigarette lighter socket, inner ø 21 mm
- with integrated, replaceable fuse (16 A)

ProCar

Car twin connector with universal plug

safety universal plug for cigarette lighter and standard sockets > 2 cigarette lighter socket

- for the simultaneous operation of 2 consumers in the car
- cigarette lighter socket, inner ø 21 mm
- compact design

0.25m 44139 Retail Blister Modell 67889000

65048 Retail Blister Modell 67664000

ProCar

Adapter cable

standard plug > car connector

- for connecting devices with a cigarette lighter plug to a standard car socket outlet (DIN EN ISO 4165)
- flat cable; inner Ø 21 mm

0.25m 65046 Retail Blister Modell 67882000

ProCar

Adapter cable with power plug

standard plug > car connector

- for connecting devices with a standard car socket outlet (DIN EN ISO 4165) to the cigarette lighter plug
- flat cable; inner Ø 12 mm

0.25m 65047 Retail Blister Modell 67801500

ProCar

Car DIN socket adapter

standard plug > car connector (DIN EN ISO 4165)

- for operating devices with large plugs using small DIN sockets
- cigarette lighter connector; inner Ø 21 mm
- straight type

65018 Retail Blister Modell 67882900

ProCar

Connection cable with crocodile clips

cigarette lighter socket > 2 crocodile clips

- for connecting to a car battery
- internal Ø 21 mm

1.00m 65042 Retail Blister Modell 67884000

ProCar

Power supply 60 W with car-cigarette lighter socket for connecting 12 V devices to 230 V

- output: 12 V DC / 5 A
- cigarette lighter socket, inner ø 21 mm
- suitable for: electric cooling boxes, lights, PRO CAR heating pads, bath mats, heating mats, and PVC heating mats

1.20 m 65050 Retail Blister Modell 20900750

ProCar

Car charging cable with Micro USB plug angled safety universal plug for cigarette lighter and standard sockets > Micro USB plug

- for charging and operating sat navs, mobile phones, smart phones, PDAs, digital cameras and devices that are suitable for charging by 5 V USB
- angled safety universal plug bendable up to 180°
- with high-performance flyback converter and integrated protection against short-circuit, polarity reversal and overload
- Micro USB plug: output: 5 V, max. 2000 mA

1.80m 65001 Retail Blister Modell 67303100

ProCar

Charging cable with Micro USB plug for motorbikes

water-protected, sealed charging for mobile devices (1,8m/1,0m)

- for charging and operating sat navs, mobile phones, smart phones, PDAs, digital cameras and devices that are suitable for charging by 5 V USB
- suitable for motorcycles, boats, cars and much more
- Micro USB plug: output: 5 V, max. 2000 mA

1.80m 65002 Retail Blister Modell 68302650

ProCar

Angled double USB charging plug safety universal angular plug for cigarette lighter and standard sockets > 2 USB jack

- for charging and operating mobile phones, sat navs, MP3 players, digital cameras, tablets and other devices
- suitable for cars, trucks, caravans and boats
- angled safety universal plug bendable up to 180°
- 2 USB jack: 5 V DC / 5,000 mA (2x 2,500 mA)

EP5 digital soldering station

for carrying out all kinds of soldering operations at home; 50 Hz

- large 3.5-digit LCD display (60 x 30 mm) shows actual and target temperature
- up/down buttons for continuously adjusting temperature settings (1°C increments; display accuracy: 5 per cent)
- short heating times let you begin work immediately (heats up to 330°C in 90 seconds)
- quick and easy to switch soldering tips
- provides a high level of stability while you work, plus 1.1 m cable for sufficient reach
- average service life of heating element in soldering iron: approx. 500 hours
- included in delivery: soldering station, soldering iron (approx. 48 W) with soldering tip (ø 1.5 mm), soldering iron holder with a sponge holder to insert the soldering tips into

51098 Retail Box

Fixpoint

Desolder wick

for removal of soldering agent from soldering sites

- 1.5 m on the coil

1.00 mm 45245 Bulk

2.00 mm 45246 Bulk

Fixpoint

HQ desoldering pump

plastic housing with anti-static Teflon tip

- thoroughly remove residual solder thanks to high suction performance
- pump with spring tension and lock
- does not recoil, self-cleaning

51202 Retail Blister

Fixpoint

HQ desoldering pump

light metal housing with anti-static Teflon tip

- thoroughly remove residual solder thanks to high suction performance
- the long, thin desoldering tip can also be used on very tightly fitted PCBs

51204 Retail Blister

Fixpoint

Desoldering pump

light metal housing with Teflon tip

- thoroughly remove residual solder thanks to high suction performance

51200 Retail Blister

Fixpoint

Cleaning kit for soldering tips

cleans soldering tips without water

- maintains soldering-tip temperature
- prevents rapid oxidation of the soldering tip
- incl. holder and cleaning wool

45239 Retail Box

Fixpoint

Cleaning Wool

cleans soldering tips without water

- maintains soldering-tip temperature
- prevents rapid oxidation of the soldering tip

72360 Bulk

Fixpoint

Third hand' soldering aid with magnifier and holder

the ideal aid for all delicate soldering operations

- soldering aid with magnifier including LED, sponge and holder
- heavy cast pillar with two movable grip clamps
- magnifier with a glass lens (\varnothing 90 mm)
- with 2 x Magnification
- 2 LEDs powered by 3 batteries AAA (batteries not included)

51226 Retail Box

Fixpoint

Circuit board holder

robust soldering stand for mounting circuit boards during soldering and craft work

- non-slip bottom studs keep it firmly in place
- adjustable arms made of plastic, includes clamping device
- possible to rotate the circuit board through 360°
- for objects with a width of up to 20 cm
- max. circuit board height: 130 mm

51220 Retail Box

Fixpoint

Third hand' soldering aid with magnifier

the ideal aid for all delicate soldering operations

- heavy cast pillar with eight ball joints and two movable grip clamps
- magnifier with a glass lens (\varnothing 59.7 mm) with 2.5x magnification

Fixpoint

Soldering iron holder

for storage of soldering irons

- stable holder with foot
- including a small soldering sponge

51199 Retail Box

51207 Retail Box

**Fixpoint****Replacement sponge**

for soldering station and soldering iron holder

- for cleaning soldering tips
- suitable for: soldering station AP 2 (51091), soldering station EPS digital (51098), soldering iron holder (51207) and set (51213)

51074 Bulk

**Fixpoint****Replacement tip**

for HQ desoldering pump (51204)

- anti-static teflon tip

51201 Bulk

**Fixpoint****Replacement tip**

for LC desoldering pump (51200)

- teflon tip

51209 Bulk

WORKSHOP – MEASURING TECHNOLOGY – CIRCUIT ANALYZER

**Testboy****Digital multimeter 3000**

with non-contact cable break detector

- ABS housing, resistant to breakage and impacts
- automatic selection of measuring range (Auto range)
- integrated LED torch

77366 Retail Box

**Testboy****Digital multimeter 313**

with automatic measuring range protection

- large LC display with backlighting
- with temperature measurement

Testboy

Voltage tester Profi III LCD+

two-pole voltage tester with Fl-Test

- highest safety level CAT IV 1000 V
- T-RMS measurement method for non-sinusoidal voltage, e.g. in the industry
- large, illuminated LC display for voltage indication up to 1000 V AC and 1400 V DC
- resistance measurement up to 1999 Ω
- frequency indication up to 1000 Hz
- with Data-hold function

79910 Bulk

Testboy

Voltage tester Profi III LED+

2 pole voltage tester with Fl test

- highest safety level CAT IV 1000 V
- practical one-hand operation; testing without finger contact
- robust, safe construction with LED display
- indication of voltages also possible without battery
- removable 4 mm test tips adaptor

79908 Retail Box

Testboy

Continuity tester 20 Plus

with non-contact voltage sensor; voltage-proofed

- with high-performance LED torch
- integrated current warner

Testboy

Cable detector 26

with variable setting of the volume

- maximum cable length 8000 m (unloaded)
- with LED flashlight

Goobay

Digital air pressure gauge

displays precise tyre pressure

- regularly checking the air pressure increases road safety and helps to save fuel
- pressure gauge display units: PSI, Bar, KPA, Kg/cm
- digital display allows accurate air pressure reading
- suitable for lorries, bicycles (with Schrader valves), motorbikes and cars
- automatic switch-off after 30 seconds of inactivity
- practical one-button operation
- including battery (1 x CR2032 3 Volt Lithium)

59799 Retail Blister

WORKSHOP – MEASURING TECHNOLOGY – CALIPERS

Fixpoint

Digital caliper 300 mm/12"

for outside, inside, depth and step measuring 0 mm - 300 mm

- features a large five-digit LCD screen (12 x 38 mm); resolution: 0.01 mm/0.0005"
- display can be set to millimetres or inches
- measurement accuracy according to DIN 862 (error limit: 30 µm)
- measurement speed: max 1.5 m/second
- zero point can be set as desired to measure differences
- five-minute timer for battery conservation
- premium quality: stainless, hardened steel

Coaxial cable stripper
with opening spring and locking lever

- for cutting and stripping all common coaxial cables

77136 Retail Blister

Fixpoint
Stripping tool with 2-blades
distance 4 mm, 6 mm, 8 mm, 12 mm

- for stripping and removing the insulation from RG 58, 59, 62, 6, 3C-2V as well as CAT 5 and CAT 6 cables

11661 Retail Blister

Fixpoint
Stripping tool with 3-blades
distance 6 mm, 8 mm, 12 mm

- for stripping and removing the insulation from RG 58 and 59 cables

11367 Retail Blister

Fixpoint
Universal stripping tool with 4-blades
for cables with a diameter between 3.2 mm - 9.5 mm, 22 AWG

- for stripping and removing the insulation from flat and round cables such as network cables, antenna cables, speaker cables, telephone cables, etc.
- with cutter

11945 Retail Blister

Fixpoint

Insertion tool for CAT 5 and CAT 6 cables; LSA
tool for putting on boards, sockets and fields

- solder-, screw- and strippingless connection technique
- for conduction diameter 0.4 mm - 0.6 mm
- pushing down and cutting in one operation

50482 Bulk

Fixpoint

Insertion tool for CAT 5 cables; LSA
tool for putting on boards, sockets and fields

- solder-, screw- and strippingless connection technique
- for conduction diameter 0.4 mm - 0.6 mm
- pushing down and cutting in one operation

77271 Bulk

Fixpoint

Crimping tool for insulated cable lugs
with wire cutter and stripping tool

- for insulated cable lugs - 0.75 mm² - 6.0 mm²
- winding cutting tool for M 2.6 - M 5

77289 Retail Blister

Fixpoint

Crimping tool for BNC, TNC, SMA and N-connector

with automatic stop and release function

- for following cable sizes: RG 55, 58, 59, 62, 140, 141, 142, 210, 223, 303, 400
- crimp diameter: 6.5 mm; 5.41 mm; 1.72 mm
- ratch for constant pressure
- metal version

11366 Retail Blister

Fixpoint

Crimping tool for isolated cable lugs

with automatic stop for reliable crimping and release function

- suitable for: 0.25 mm² – 1.5 mm² (red); 1.5 mm² – 2.5 mm² (blue); 4 mm² – 6 mm² (yellow)
- ratch for constant pressure
- consistently high crimping quality thanks to integral lock (can be released)
- metal version

11790 Retail Blister

Fixpoint

Crimping tool for modular plugs

with integral lock and automatic release, cable cutter and wire stripper

- for 4, 6 and 8-pin modular connectors, type RJ 10, RJ 11, RJ 12, RJ 45
- with longitudinal cutter and stripping knife for unshielded flat ribbon cable; stripping: 6 mm and 12 mm
- exact crimping process due to parallel crimping
- repetitive, high crimping quality due to integral lock (self releasing mechanism)
- optimum transmission of force due to lever action for fatigue reduced operation
- head burnished

50284 Retail Blister

Fixpoint

NEW**Goobay****Battery-powered stapler, 3.6 V**

for quick and simple stapling

- powerful tool for cordless stapling at up to 30 staples per minute
- ergonomically shaped handle with rubberised surface for a secure hold
- staple release only possible in operating position (safety lock feature)
- rear-loading system enables quick reloading
- includes 1,000 staples, charger (3.6 V 1300 mAh Li-ion) in a practical case
- maximum staple depth of 12 mm (type 53)

55599 Sleeve

NEW**Goobay****Staples, type 53**

suitable for battery-powered stapler #55599

- staple length: 6–14 mm
- staple thickness: 0.75 mm
- staple width: 11.4 mm
- contents: 1,000 pieces

55600 Bulk

**Fixpoint****Clamping tool for cable ties**

with adjustable clamping force for clamping and automatic cutting of cable ties

- for plastic cable ties with a width of 2.2 mm to 4.8 mm
- metal version

77116 Retail Box

**Fixpoint****5 pcs. pliers-set**

electricians and electronic technicians

- precise small pliers with insulated grip
- extra hardened tool steel for long product life
- with doubled spring mechanic
- non-slip insulated grip
- nickel plated
- contents: flat nose pliers 125 mm, wire cutting plier 125 mm, round plier 125 mm, flat nose pliers 45° arcuated 125mm, needle-nosed pliers 125 mm
- delivery with useful synthetic nylon case

77115 Bulk

Fixpoint

Half-round, flat-nose pliers, 160 mm
with corrugated nose (5 cm)

- highly precise pliers; polished
- extra hardened tool steel for long product life
- non-slip insulated grip
- nickel version

77150 Retail Blister

Fixpoint

Half-round, flat-nose pliers, 125 mm
with corrugated nose (2.5 cm)

77276 Retail Blister

Fixpoint

6 pcs. small screwdriver set

packing in a plastic-box

- content:
- 2 pcs. cross slot (0; 1)
- 4 pcs. slot (1.4; 2.0; 2.4; 3.0)

77050 Retail Blister

Fixpoint

25 pcs. universal tool set

packing in a box

- content:
- 6 pcs. micro-screwdrivers
- 1 pc. micro-cutter
- 1 pc. mini telephone pliers
- 1 pc. bit screw-driver with extension
- 10 pcs. bits (PH1; PH2; PZ1; PZ2, 5, 6; T10; T15; T20; 1 pc. adaptor)
- 4 pcs. socket wrench (5; 6; 8; 10 mm); 1 pc. tweezers

77093 Retail Box

Fixpoint

Electric screwdriver-set, 8 pcs.

hardened tool steel, incl. voltage-tester

- with protective insulation up to the blade
- voltage proof up to 1000 V
- content:
- 3 pcs. cross slot-driver, 4 pcs. slot driver
- 1 pc. voltage tester

77113 Retail Box

Fixpoint

17 pcs. smartphone tool set

made by high grade S2 tool-steel

- to repair smartphones, tablets and notebooks
- incl. suction cup to avoid leaving finger prints inside the screen
- contents:
- 1 pc. bit holder; 3 pcs. cross (PH000-00-0); 2 pcs. slotted (1.0; 2.0 mm)
- 4 pcs. Torx (T2, T3, T5, T6); 2 pcs. pentalobe (TS1, TS4); 1 pc. tri-wing (Y1)
- 1 pc. suction cup, 2 pcs. opening levers, 1 pc. triangle lever

44690 Retail Blister

Fixpoint

Screwdriver with magnetic bit-holder

with soft rubber grip for a secure hold

- incl. 6 bits:
- 2 pcs. slot (5 mm; 6 mm)
- 4 pcs. cross-slot (PH0; PH1; PH2; PH3)

77095 Retail Blister

Fixpoint

Battery-powered glue gun for 7 mm sticks; 25 W

for convenient, cable-free gluing

- up to 22 g glue per minute
- ready for gluing after just 15 sec. pre-heating
- easy to use thanks to compact design
- energy-efficient thanks to auto-off function: device powers down after 4-5 minutes of inactivity
- operational time per charge cycle: approx. 45 min
- suitable for wood, glass, ceramics, plastics, leather or textiles
- incl. 3 glue sticks (replacement glue sticks: 77024) and power supply

71881 Retail Box

Fixpoint

Hot glue gun for 7 mm - 8 mm sticks; 10 W
clean gluing for hobbyists and home use

- up to 10 g of glue per minute
- ready for gluing after a maximum of 5 minutes pre-heating
- extremely easy to use thanks to compact design
- suitable for wood, glass, ceramics, plastics, leather or textiles
- incl. 2 glue sticks (replacement glue sticks: 59180 and 56637)

59175 Retail Blister

Fixpoint

Wireless glue gun for 11 mm sticks; 80 W
for clean, cable-free gluing for hobbyists and home use

- up to 20 g glue per minute
- ready for gluing after a maximum of ten minutes pre-heating
- gluing time without power supply: up to 15 minutes
- suitable for wood, glass, ceramics, plastics, leather or textiles
- incl. 2 glue sticks (replacement glue sticks: WZ HKS 11 #77025) and base-station

77026 Retail Box

Fixpoint

Hot glue gun for 12 mm sticks; 40 W
clean gluing for hobbyists and home use

- up to 16 g of glue per minute
- ready for gluing after a maximum of 4 minutes pre-heating
- extremely easy to use thanks to compact design
- suitable for wood, glass, ceramics, plastics, leather or textiles
- incl. 2 glue sticks (replacement glue sticks: 59179)

59176 Retail Blister

Fixpoint

Hot glue gun for 12 mm sticks; 200 W
clean gluing for hobbyists and home use

- up to 25 g of glue per minute
- ready for gluing after a maximum of 3 minutes pre-heating
- extremely easy to use thanks to compact design
- suitable for wood, glass, ceramics, plastics, leather or textiles
- incl. 2 glue sticks (replacement glue sticks: 59179)

59177 Retail Blister

Fixpoint

Replacement glue sticks 7 mm | 11 mm
content: 6 pcs.

- length: 100 mm
- suitable for wood, glass, ceramics, plastics, leather or textiles
- suitable for glue gun: #71881 | #77026

7.00 mm 77024 Retail Blister

11.00 mm 77025 Retail Blister

Fixpoint

Replacement glue sticks 7 mm
content: 10 pcs

- length: 150 mm
- suitable for wood, glass, ceramics, plastics, leather or textiles
- suitable for glue gun: #59175

56637 Retail Blister

Fixpoint

Replacement glue sticks 12 mm
content: 10 pcs.

- length: 100 mm
- suitable for wood, glass, ceramics, plastics, leather or textiles
- suitable for glue gun: #59176 and #59177

59179 Retail Blister

Fixpoint

Replacement glue sticks 7 mm
content: 10 pcs.

- length: 100 mm
- suitable for wood, glass, ceramics, plastics, leather or textiles
- suitable for glue gun: #59175

59180 Retail Blister

Fixpoint

Super glue 20 g

together with practical, lockable dosing cap

- for household, industry, hobby, model building, and so on
- adhesive for example ceramic, metal, plastics, glass, rubber or leather

77012 Retail Blister

Fixpoint

Super glue 10 g

together with practical brush inside the breech cap, for easy dosing

- for household, industry, hobby, model building, and so on
- adhesive for example ceramic, metal, plastics, glass, rubber or leather

77017 Retail Blister

Fixpoint

Super glue 3 g

together with practical, lockable dosing cap

- for household, industry, hobby, model building, and so on
- adhesive e.g. ceramic, metal, plastics, glass, rubber or leather

77002 Retail Blister

Kedo

Universal sealing strip

The helper from reel, seals everything!

- suitable for temporary repairs, ideal for garage, homes, hobby, garden or for car repairing
- spike resistant up to 40.000 V / mm
- 10 m on roll

77123 Bulk

Teslanol
Active cleaner (isopropyl alcohol)
 gently and reliably cleans sensitive materials

- 99.5% pure isopropyl alcohol
- for components such as pick-ups, disk drive parts, rollers etc.
- evaporates quickly and leaves no residue
- highly flammable
- universally usable in electronics and precision mechanics and for optical components

1000.00 ml 26045 Bulk

Teslanol
Compressed air spray
 for cleaning and removing dust from electronic and precision mechanical equipment

- for photographic cameras and lenses, projectors, other cameras, clock mechanisms, models etc.
- even in difficult-to-reach areas
- chemically pure, no residue is left behind
- very gentle on materials

200.00 ml 26002 Bulk

400.00 ml 26003 Bulk

Teslanol
Printer cleaner
 cleans contaminated printer, fax and typewriter components

- removes oils, grease, resin, wax and ink deposits without leaving any residues
- without damaging the components, restores the print quality
- special solvent mixture reduces further susceptibility to dirt

200.00 ml 26040 Bulk

Teslanol
Electromechanical cleaner
 for precise cleaning of electrical contacts

- for switches, relays, resistors, circuits, cable connectors etc.
- especially suitable for NF/HF/UHF precision mechanical components
- dissolves deposits such as oxides, nicotine, oils, grease and resin
- frequency-stable, non-conductive, prevents leakage currents
- evaporates quickly, leaves no residue, follow-up treatment not required

200.00 ml 26017 Bulk

400.00 ml 26018 Bulk

Teslanol

Plastic cleaner

powerful cleaner for plastics, metals and rubber parts

- antistatic solvent for intensive and residue-free cleaning
- suitable for all common metals, plastics and rubber seals
- reliably dissolves silicone, wax, grease, oils and other soiling
- universally usable in the home and in the garden

200.00 ml 26041 Bulk

Teslanol

Contact and preservation spray

for precise cleaning and maintenance of contacts

- for switches, relays, potentiometers, transistor tuners etc.
- creates a micro lubricating film that preserves components with lasting effect and keeps them fully functional
- reduces the abrasion of thin metal layers
- no frequency changes, contact resistances are quickly removed
- impregnation against moisture and soiling
- protects damaged precious metal layers against corrosion
- no follow-up treatment required

200.00 ml 26025 Bulk

400.00 ml 26026 Bulk

Teslanol

Foam surface cleaner

for intensive cleaning and maintenance of plastic

- gentle on plastic furniture, plastic parts and all types of glass surfaces
- dissolves dirt and nicotine, does not scratch, is antistatic and gives a shine
- whether coloured or white, hard or soft, grained or smooth
- delays the build-up of new dirt and is biologically degradable

400.00 ml 26012 Bulk

Teslanol
Shaving head cleaner
for maintaining electric shavers

- gently cleans the shaving system
- improves shaving performance
- leaves a touch of grease

100.00 ml 26050 Bulk

Teslanol
Roller cleaner
removes deposits on silicone and rubber rollers

- cleans reliably and has a slight re-greasing effect to prevent rollers from drying out
- suitable for currently available photocopiers, laser printers and fax machines
- universally usable for all standard materials

400.00 ml 26043 Bulk

Teslanol
Intensive roller cleaner
for intensive cleaning of platens

- combination of solvents for removing oxides, nicotine, grease, ink deposits and other soiling
- cleans gently but thoroughly with a light roughening effect
- extremely fast evaporation

1000.00 ml 26035 Bulk

Tesanol

Mechanics penetrating oil

dissolves old dried-on lubricants such as oil and grease

- stabilised, pressure-resistant fine lubricant
- prevents lubricants from drying on again, protects against corrosion and dust
- loosens rust and oxides, penetrates beneath water and dampness
- does not age, can be used for all precision mechanics, locks and precision instruments
- also suitable for electrics in switches, relays and contacts

200.00 ml 26030 Bulk

Tesanol

Adhesive lubricant spray

leaves behind an adhesive universal lubricant

- special benefit of high slip resistance and adhesive strength
- water-repellent, electrically insulating, chemically stable
- temperature-resistant from -60°C to +300°C, pressure-resistant with 3 atm/m²
- contains high-quality synthetic oils
- suitable for use in mechanics and electromechanics or for photocopiers

200.00 ml 26009 Bulk

Tesanol

Mechanical lubricant spray

for lubricating all types of instruments and devices

- the all-round product for precision and general mechanics
- emulsifies old dried-on lubricants such as oil and grease
- water and moisture-repellent, reliable corrosion protection
- suitable for maintaining machines, model trains and moving parts
- can be used on metals and non-metals

200.00 ml 26010 Bulk

Tesanol

Insulating and protective varnish

for sealing and insulating electronic components

- ideal for printed circuits, coils and other electronic components
- can also be used with distributors, batteries, motors etc.
- prevents leakage currents, eliminates soft shorts on coils and transformers
- frequency and voltage-stable (inherent resistance 22 kV with layer thickness 25 µ)
- can be soldered through, resistant against acid, salt water and condensation
- does not drip and distributes evenly

200.00 ml 26027 Bulk

400.00 ml 26028 Bulk

Tesanol

Multi silicone spray

efficient insulating agent

- for preventing leakage currents and flashovers in high voltage transformers
- reliable release agent for insulating tasks, particularly when the insulating film is not allowed to harden
- highly insulating with a dielectric strength of 12 kV/mm
- temperature-resistant from -50°C to +200°C, eliminates corona effects
- does not dry out, repels water, also effective as non-conductive moisture protection
- excellent lubricating agent for mechanical, oil-sensitive components

400.00 ml 26042 Bulk

**Teslanol****Cooling spray**

for cooling components to quickly locate thermal errors

- also suitable for functional tests of thermostats or TN start systems
- for cooling when soldering, for cooling down heat-sensitive ICs
- material-compatible cooling up to approx. -50°C

200.00 ml 26033 Bulk

400.00 ml 26034 Bulk

**Teslanol****Sticker remover**

for easy removal of labels, stickers, adhesive tapes etc.

- precise and economical dosing, works on all surfaces
- does not corrode any commercial plastics
- be careful when using polystyrene and other sensitive plastics
- universally usable in offices, in industry, in workshops or at home

200.00 ml 26008 Bulk

**Teslanol****Rust remover**

loosens all kinds of rusted parts

- works at lightning speed and breaks down rust immediately
- even reaches hidden places
- protects against further corrosion and salt water
- penetrates beneath dampness, quick and economical to apply
- for industry, workshops, cars and people with hobbies

200.00 ml 26015 Bulk

Tecxus Rechargeable

- high efficiency, for devices with high energy requirements
- long lifetime for applications with constant and low energy consumption
- no memory effect, therefore it is not necessary to always fully discharge
- rechargeable up to 1000 times, they are especially environmental friendly
- contains no traces of mercury or cadmium

AAA (Micro)/HR03 - 600 mAh

Nickel-metal hydride battery (NiMH), 1.2 V
44.5 x 10.5 mm

Varta Solar Rechargeable

AAA (Micro)/HR03 (56733) - 550 mAh

Nickel-metal hydride battery (NiMH), 1.2 V
44.5 x 10.5 mm

44146

2 pcs. blister

- the reliable VARTA Solar Rechargeable energy supply ensures the right lighting – anytime you want
- especially developed for solar garden lights
- optimized capacity for low current garden lights which need high frequency recharging cycles (almost daily)
- rechargeable hundreds of times without memory effect
- long lasting, environmental friendly energy

AA (Mignon)/HR6 (56736) - 800 mAh

Nickel-metal hydride battery (NiMH), 1.2 V
50.5 x 14.5 mm

43361

2 pcs. blister

Varta Ready to Use

- Pre-charged, use them straight from the pack as normal alkaline
- Remain charged up to 75% (when not in use) after 12 months
- Rechargeable without any memory effect
- Very low self-discharge (LSD)

AAA (Micro)/HR03 (56703) - 800 mAh

Low-self-discharge NiMH battery (ready-to-use), 1.2 V
44.5 x 10.5 mm

Terminal overview

F1 Terminal

4.8 mm FASTON F187
FASTON TYPE (copper) quick
disconnect tabs; silver coating for
better conductivity

F2 Terminal

6.38 mm FASTON F250
FASTON TYPE (copper) quick
disconnect tabs; silver coating for
better conductivity

F3 Terminal

Brass coated with tin
torque: 3.9 ~ 5.4 Nm

F4 Terminal

Brass coated with tin

F5 Terminal

Brass coated with tin
torque: 3.9 ~ 5.4 Nm

F6 Terminal

Brass coated with tin
torque: 3.9 ~ 5.4 Nm

F7 Terminal

Brass coated with tin
torque: 3.9 ~ 5.4 Nm

F9 Terminal

Lead
torque: 11 ~ 14.7 Nm

F10 Terminal

Lead
torque: 3.9 ~ 5.4 Nm

F11 Terminal

Brass coated with tin;
threaded insert 8 mm
STUD torque: 11~14.7 Nm

F12 Terminal

Brass coated with tin;
threaded insert 5 mm
STUD torque: 2.0 ~ 3.0 Nm

F13 Terminal

Brass coated with tin;
threaded insert 6 mm
STUD torque: 3.9 ~ 5.4 Nm

F14-1 Terminal

Lead
torque: 11 ~ 14.7 Nm

F14-2 Terminal

Lead
torque: 11 ~ 14.7 Nm

Spring Terminal

spring steel fully collapsible

Connector

H-connector

Ultracell UL

- oxygen recombination technology for maintenance-free usage
- alloy mesh anode to minimize gas leakage and very low self discharge
- battery housing made from very durable ABS material
- silver-plated copper terminals improve electrical conductivity
- application: all purpose, UPS, emergency lighting, backup power, security systems

Yuasa NP

- shock-resistant and break-proof industrial battery with ABS housing (EUROBAT: 3-5 years „Standard Commercial“)
- electrolyte glass fibre mat bound (AGM technology)
- lead calcium grid for longer service life
- valve-controlled construction, almost 100% oxygen recombination
- very good charging efficiency, low self-discharge (3% per month at 20 °C)
- quick recovery after deep discharge, operation in any position (except overhead)
- EN ISO 9001, EN ISO 14001, IEC61056, UL

Suitable connectors and more Yuasa types on request.

Yuasa NPH

- industrial battery for mini/midi ups (EUROBAT: 3-5 years ,Standard Commercial')
- lead calcium grid for longer service life (AGM technology)
- valve-controlled construction, almost 100% oxygen recombination
- shock-resistant and break-proof plastic housing made of ABS
- quick recovery after deep discharge, low self-discharge (3% per month at 20 °C)
- EN ISO 9001, EN ISO 14001, IEC61056, UL, operation in any position (except overhead)

Article-No.	Manufacturer designation	Voltage	max. capacity	Connection. type	Length x Width x Height
42184	NPH5-12	12 V	5.0 Ah	Faston (6.5 mm)	90 x 70 x 105 mm
42998	NPH45-12	12 V	8.5 Ah	Faston (6.35 mm)	151 x 65 x 97.5 mm

Panasonic Trickle Design Life 6-9 Years

- developed to prevent deterioration of conventional batteries
- greatly improved safety and reliability by flame-retardant resins
- for 2.2 - 33 Ah: 94HB-equivalent resin is standard, 94V-0 also suitable

Goobay

Plug-in charger

suitable for up to 4 Micro (AAA) or Mignon (AA) batteries and 2 pcs. 9 V blocks

- integrated discharge and battery test function
- suitable for NiCd and NiMH rechargeable batteries

54516 Retail Box

Goobay

Universal LCD desktop charger

suitable for up to 4 Micro (AAA), Mignon (AA), Baby (C) or Mono (D) batteries and 2 pcs. 9 V block

- can simultaneous charge different sizes and technologies (NiMH, NiCd, Li-ion and LFP batteries)
- suitable for charging e-cigarettes
- comfortably charge using a vehicle charging cable even when you're on the move
- microprocessor control device with LCD status display
- constant voltage charge with minus delta V shutdown
- with surge protection, short-circuit protection and safety shutdown
- includes a travel adapter with plug adapters for the EU, UK, US and Australia

73178 Retail Box

Goobay

Lead Battery charger

suitable for 6 V or 12 V lead gel, glass-mat or acid batteries

- for car batteries, scooters, motorcycles, fish finder, boat motors, etc.
- manually adjustable voltage to 6 V or 12 V (max. 1.8 A)
- all lead-acid batteries are chargeable, e.g. gel, glass-mat, acid
- protection against overload and reverse polarity
- terminal clamps and DC adapter (5.5 x 2.1 mm) included in delivery

54334 Retail Box

Goobay

LCD battery tester

for standard and photo batteries and all common button cells

- suitable for AAA (Micro), AA (Mignon), C (Baby), D (Mono), 9V Block, N (Lady), CR 2, CR123A, CR-P2, CR-V3, 2CR5
- with LCD display
- no AAA device batteries included in delivery

78325 Retail Blister

Goobay

LCD battery tester

for standard batteries

- suitable for AAA (Micro), AA (Mignon), C (Baby), D (Mono), 9V Block, N (Lady)
- with LCD display
- no AAA device batteries included in delivery

The following General Terms and Conditions apply to all contracts and other business relationships which we, Wentronic GmbH (hereinafter called Seller) may enter into with our customers and other business partners (hereinafter called Purchaser) for the purpose of supplying goods, performing various services and fulfilling contractual obligations.

1. Area of application

1.1 Seller exclusively supplies merchants within the meaning of Section 14 of the German Civil Code (BGB). This means that Seller does not supply directly to consumers, but only to such persons who place orders with Seller in the course of their commercial or self-employed business activities. Each Purchaser gives an assurance that orders are placed with Seller solely in the course of Purchaser's commercial or self-employed business activities and that Purchaser places said orders as a merchant within the meaning of Section 14 of the German Civil Code (BGB).

1.2 These General Terms and Conditions apply exclusively. Conflicting terms imposed by Purchaser are hereby expressly repudiated, and do not apply even if not separately repudiated by Seller in individual cases. Purchaser's conflicting terms only apply if consented to by Seller in individual cases in writing.

1.3 The Seller's General Terms and Conditions become an integral part of future business transactions and shall apply to future business provided that appropriate reference is made no later than in the order confirmation.

2. Entry into contract, offers, prices and use of product data and depictions

2.1 A contract comes into existence when Seller sends a confirmation of order to Purchaser.

2.2 All offer prices are purely net and are ex warehouse Braunschweig/Brunswick, Germany, plus statutory value added tax. The seller may charge additional shipping and packaging costs. For orders with a total value of less than EUR 50.00 net, the seller is entitled to charge a minimum quantity surcharge of EUR 5.00 plus the statutory value added tax.

2.3 Unless otherwise expressly agreed, offers made by Seller are non-binding and without obligation. Seller reserves the right to make reasonable price adjustments.

2.4 Descriptions and technical data correspond with manufacturers' information. Seller reserves the right to make changes.

2.5 Purchaser is permitted to use the content of catalogues and online offers by Seller (e.g. product descriptions, data and illustrations) – including mere extracts – only with the express consent of Seller. Such consent shall be deemed to be retracted forthwith if Purchaser does not obtain, or no longer obtains, the goods in question exclusively from Seller.

3. Delivery, delivery times and impediments

3.1 Purchaser is under obligation to accept the goods ordered. This is a cardinal obligation. Should Purchaser refuse acceptance without justification, in particular all rights afforded by Sections 280 ff of the German Civil Code (BGB) accrue to Seller.

3.2 Quoted delivery times and dates are intended only as reference indications (approximate times) and are therefore deemed to be agreed only as approximate.

3.3 Part deliveries are permissible. Goods that are temporarily sold out will automatically be placed on back order and supplied at a later date unless expressly cancelled by Purchaser. Provided the overall value of goods outstanding amounts to EUR 50.00 or more, no shipping or packing costs will be billed with such deliveries. Shipping and packing costs will be charged for deliveries of outstanding goods valued at less than EUR 50.00. For deliveries of outstanding goods to destinations abroad, shipping and packing costs will be charged in all cases.

3.4 In case of unforeseen impediments beyond Seller's responsibility such as force majeure, strikes, interruptions to Seller's or an upstream supplier's business operations, transport difficulties, etc., Seller is entitled to postpone delivery for the duration of the impediment or withdraw either in whole or in part from the contract. In the event that goods ordered are not available, Seller will inform Purchaser immediately and refund any payments already made forthwith.

4. Shipment, transfer of risk, postage and packing

4.1 Goods are shipped via a forwarding agent or carrier to be selected by Seller. Risk transfers to Purchaser as soon as the shipment is handed over to the forwarding agent or carrier, however, no later than upon leaving Seller's warehouse, even if delivery is performed by Seller. Every order placed by Purchaser is thus deemed a sale by dispatch at Purchaser's request.

4.2 If so requested by Purchaser, Seller will insure the goods against transport risks at Purchaser's expense.

4.3 In addition to the Seller's obligations subject to these GTC in case of shipment abroad, Seller shall provide the goods or shipment EXW (ex works) in accordance with the Incoterms as amended in the currently valid version if no different type of provisioning requirement has been agreed.

4.4 Postage and packing will all cases be billed separately to Purchaser.

5. Payment and default

5.1 Insofar as no other payment modalities are agreed, irrespective of any reported defects, invoiced amounts are payable to Seller in non-cash form without deduction immediately upon receipt of the invoice. If Purchaser is in default, Seller may charge default interest at 9 percent above the currently applicable base rate plus EUR 5.00 for each written reminder. Seller reserves the right to demonstrate further loss or damage.

5.2 Payment shall be deemed as effected when and if Seller can dispose of the amount. Payment by check is excluded.

5.3 In the case of SEPA direct-debit clients, Seller shall be entitled to send the pre-notification stating when the Purchaser's bank account will be debited and by what amount, only within the statutory period, i.e. at least one business day (24 hours) before the debiting will be effected.

5.4 Invoices issued by Seller for services and special orders are payable without deduction immediately upon receipt.

5.5 First deliveries to new customers must be paid for in advance or cash on delivery (COD).

5.6 Should Purchaser be in default of any payments due to Seller, all other claims on the part of Seller against Purchaser will immediately fall due.

5.7 If Seller continues to supply goods despite Purchaser being in default, payments then made by Purchaser will apply exclusively to the goods most recently delivered, solely for the reason that Seller would not otherwise under any circumstances have supplied further goods to Purchaser.

5.8 Should Purchaser refuse acceptance without justification, Seller shall be entitled to claim compensation from Purchaser including loss of profit. The claim including loss of profit amounts to at least 10% of the purchase price plus statutory VAT, whereby Purchaser is at liberty to demonstrate some lesser loss. Seller reserves the right to demonstrate a greater loss.

5.9 Only those claims which are undisputed or recognized by declaratory judgment may be set off by Purchaser. A right of retention may be asserted by the Purchaser only insofar as it is based upon the same contractual relationship.

6. Reservation of title

6.1 Seller shall deliver goods to Purchaser always subject to reservation of title.

6.1.1 This reservation of title is, on the one hand, instituted for Seller to retain the sole ownership and full title to the goods until full payment of the purchase price to Seller (simple reservation of title).

6.1.2 On the other hand and despite the fact that Purchaser does not hold title to the goods, Purchaser is entitled to process and sell the goods within the normal course of business (pledges, chattel mortgages and covenants on the prohibition of any assignment are not permitted) as long as he is not in default. The Purchaser herewith assigns to Seller the entirety of Purchaser's claims (including all balance claims from any current account) arising from the resale or processing of the goods or from any other legal reason (insurance, tort), and Seller accepts this assignment. In addition, Seller revocably authorizes Purchaser to effect in its own name and on behalf of Seller collection of the claims assigned to Seller (prolonged reservation of title).

6.1.3 Seller reserves the right to convert the reservation of title upon agreement with Purchaser into a security encompassing all current and future claims (extended reservation of title).

6.2 Any processing or assembly of the goods shall always be in favour of Seller, but without any obligation for it. If and when Seller's (co-) ownership expires as a result of the combining or mixing of the secured property with other property, Seller and Purchaser agree herewith that the Purchaser's (co-)ownership interest in the resulting unitary item shall pass to Seller in proportion to its value (invoice value). Purchaser shall hold and keep secure the co-owned goods free of charge.

6.3 In the event of any appropriation by any third party of the goods subject to reservation of title, Purchaser shall notify such party of Seller's co-ownership interest and promptly inform Seller. If Purchaser violates any provision hereof, particularly in the event of default in payment, Seller shall be entitled subject to provisions 323 or 324 German Civil Code (BGB) to repossess the goods subject to reservation of title and to demand assignment of Purchaser's claims for recovery of possession against third parties. Seller shall likewise be entitled in such cases to actively collect

Purchaser's outstanding receivables from Purchaser's clients. At Seller's first request Purchaser shall identify its customers to Seller immediately, inform it of any assignments and disclose to Seller any information necessary for assertion of its rights against such customer. Documents necessary for this shall also be returned to the Seller upon first request and without delay. The seller shall also be entitled to inform Purchaser's customer of the assignment.

6.4 In the event that the market value of the securities granted exceeds the value of the secured claims by more than 10%, Seller shall, at Purchaser's request and at its own discretion, surrender such portion of the securities.

7. Assignment

7.1 Seller shall be entitled to assign claims against Purchaser to third parties.

7.2 Purchaser's rights against Seller are not transferable outside of the scope of Section 354 a of the German Commercial Code (HGB) and must not be assigned to third parties.

8. Defects and liability

8.1 Complaints by Purchaser in respect of goods supplied must be reported to Seller in text form within 8 days of receipt of goods. In the case of justified notifications of defects, the seller has the right either to remedy the defects or to take back the goods by crediting the invoiced amount or to make a replacement free of charge within a reasonable period or to credit the purchaser with the reduced value of the goods.

8.2 If the seller delivers goods outside Germany at the request of the buyer, the buyer is obliged to independently carry out any necessary recycling law registrations and reports for these goods in the country of destination in question.

8.3 Seller is not liable for any loss or damage suffered by Purchaser. This exclusion of liability does not, however, extend to claims by Purchaser which:

8.3.1 are based on loss of life, physical injury or impairment of health attributable to a negligent breach of duty on the part of Seller or a wilful or negligent breach of duty by Seller's legal representatives or vicarious agents;

8.3.2 qualify as other claims and are based upon gross negligence on the part of Seller or wilful or gross negligence on the part of Seller's legal representatives or vicarious agents;

8.3.3 arise under the terms of the Product Liability Act (ProdHaftG) or

8.3.4 Seller is liable for typically foreseeable losses; for typically foreseeable losses Seller is liable up to a maximum of EUR 2,500.00, or for purely pecuniary losses up to a maximum of EUR 1,250.00. If and to the extent that damage within the meaning of item 8.3.4 is covered by damage insurance and the insurance company agrees to settle higher amounts than those specified in item 8.3.4, the seller shall be liable up to the amount actually settled by the insurance company in the specific case of damage. Insofar as Seller is liable for typically foreseeable losses, liability for indirect or consequential loss is excluded.

9. Notices pursuant to the German Batteries Act (BattG)

As a seller of batteries and rechargeable accumulators (or of equipment which contains batteries and rechargeable accumulators), Seller is obliged under the terms of the Batteries Act (BattG) to issue the following notices to Purchaser:

a) Batteries and rechargeable accumulators may be returned to Seller after use or handed back free of charge locally (e.g. in local retail stores or at municipal collection points).

b) Batteries and rechargeable accumulators may not be disposed of with domestic waste; users are obliged by law to return used batteries and rechargeables.

c) The symbol portraying a waste bin crossed through means that batteries and rechargeable accumulators may not be disposed of with domestic waste. The meaning of the lettering displayed beneath this symbol is as follows:

Pb: Battery/rechargeable contains lead

Cd: Battery/rechargeable contains cadmium

Hg: Battery/rechargeable contains mercury

10. Written form, place of fulfilment, jurisdiction, choice of law, severability clause

10.1 The Parties agree that any alteration, cancellation or amendment of these GTC and/or any contract must be made in writing. This likewise applies to any alteration/cancellation of the requirement for the written form which may not be dispensed with even in individual cases.

10.2 The place of fulfilment in respect of duties incumbent on both Seller and Purchaser is the head office location of Seller (Braunschweig/Brunswick, Germany).

10.3 Provided that Purchaser is a merchant, legal entity constituted under public law or special public fund or if Purchaser has no general place of jurisdiction in the Federal Republic of Germany, the exclusive place of jurisdiction for any and all disputes between Seller and Purchaser is Seller's head office location (Braunschweig/Brunswick, Germany).

10.4 These GTC and any contract are subject to the law of the Federal Republic of Germany; the UN Convention on the International Sale of Goods is excluded.

10.5 Should any of the contractual provisions agreed between Seller and Purchaser be or become invalid, ineffective or unenforceable or fail to contain a provision which is necessary in itself, this shall not only not affect the validity of the remaining provisions of the contract in case of doubt, but the validity of the remaining provisions of the contract shall always be maintained. In place of the invalid, ineffective or unenforceable provision or for the execution of the loophole, a legally permissible provision shall apply which corresponds as far as possible to what the parties have wanted or would have wanted according to the meaning and purpose of the contract if they had recognized the loophole.

Wentronic GmbH
