• DisplayPort is a universal connection standard for the transmission of picture and sound signals. Applications include mainly the connection of monitors and televisions to computers, BluRay players and similar devices.
• The connector requires less space and is therefore more suitable for portable display devices (ultrabooks, notebooks/laptops) or for 2 connectors on a graphics card (on a slot plate).
• The practical plug design prevents the cable from slipping out of the DisplayPort socket.
• The robust nylon braid protects the DisplayPort cable effectively and sets it in scene visually.
• High-quality, double-shielded cable (foil+braid) with gold-plated contacts for optimum transmission of image signals
• Black metallic connector housing

• Compliant DP v1.2 (max. 4096 x 2560 @60Hz)
